

# NAIROBI METROPOLITAN AREA TRANSPORT AUTHORITY (NaMATA)

## STRATEGIC PLAN 2023 – 2027

## **VISION**

A safe, reliable, affordable and seamless public transport system.

## **MISSION**

To develop, maintain, regulate and manage an integrated and sustainable public transport for enhanced urban mobility within the Nairobi Metropolitan Area

## **CORE VALUES**

Integrity  
Customer focus  
Innovativeness  
Inclusivity  
Teamwork  
Professionalism

## FOREWORD

---

The Nairobi Metropolitan Area (NMA) has been experiencing significant challenges arising from increased vehicular traffic congestion and NMT ridership. This has resulted in huge losses of man hours by commuters within the NMA and environmental degradation arising from excessive emissions. The Integrated National Transport Policy, therefore, outlined the challenges in the public transport sector, and recommended the establishment of Nairobi Metropolitan Area Transport Authority (NaMATA) as a coordinating agency.

NaMATA was established by an Executive Order through Legal Notice No. 18 of 17th February, 2017. The Order mandates the Authority to oversee the establishment of an integrated, efficient, effective, and sustainable public transport system particularly Mass Rapid Transit System (MRTS) which includes Bus Rapid Transit (BRT), Commuter Rail Services and Non-Motorized Transport (NMT) among others within the NMA.

The restructuring and modernization of an urban public transport system is extremely complex and difficult. The development and maintenance of public transport will best be tackled through a multi-agency approach for tangible benefits to be realized. Implementation of this Strategic Plan will revolutionize public transport from the way we know it today. Transformation of public transport is one of the key result areas of this strategic plan. NaMATA expects all players in the sector and beyond to participate in the realization of this noble goal. Further, the Authority will continue to engage stakeholders on matters affecting its operations in the spirit of stakeholder participation and to promote activities that increase the attractiveness of MRTS.

The Plan was developed in recognition of the national development agenda. To this end, the role of the Authority as far as the realization of the national development agenda as stated in a number of protocols is clearly articulated. These protocols include; the Kenya Vision 2030, the Bottom-up Economic Transformation Agenda, Africa Agenda 2063 and Sustainable Development Goals among others. The Authority's strategic focus has been communicated through the Key Result Areas and a clear vision and mission have been developed to focus staff energy towards delivery of the mandate. It is my hope and desire that all our stakeholders will support us as we implement this strategic plan whose main agenda is to transform public transport within the NMA.

Chairman of the Board

## PREFACE AND ACKNOWLEDGEMENT

---

The development of a safe, reliable, affordable and seamless public transport system is a prerequisite for any country's economic growth. NaMATA has been established to oversee the development of an integrated, safe, efficient and sustainable public transport with particular reference to MRTS within the NMA.

The purpose of this Strategic Plan is to guide the activities of the Authority through the defined five years period with a vision and mission statements that are committed to transforming quality of life through an integrated, safe, reliable, affordable, seamless and sustainable public transport system within the Nairobi Metropolitan Area. The Authority's core values which are Integrity, customer focus, Innovativeness, Inclusivity, Teamwork and Professionalism are aimed at inculcating professionalism and a positive organizational culture.

In addition, the plan is expected to help NaMATA to focus on the delivery of its mandate by navigating challenges, threats and internal/external environments. The focus of the Authority's strategy is on three key result areas namely: Sustainable urban mobility, Institutional Capacity and Financial sustainability. The management team is expected to align their actions to support the three key result areas. This will go a long way in unifying the coordination role as well as avoiding unilateral decisions that result in unnecessary conflicts within the NMA.

The process of developing this strategic plan was very consultative and it followed the methodology provided by the National Treasury and Economic Planning Ministry i.e initiation, development, validation, finalization and dissemination of the strategic plan. The process started with the Board appointing a technical committee of Management and senior officers of the Authority. The committee then proceeded to develop a zero draft for discussion with the Board. After the Board's input was incorporated in the strategic plan, the draft was validated with the various stakeholders. The strategic plan was then finalized and disseminated.

On behalf of the staff of NaMATA, I would like to most sincerely thank the Board for the unwavering support you have always given the Authority and especially the role they played in determining the rationale and scope of development of this strategic plan. The Board's clear articulation of the strategic direction enabled the strategic plan development technical committee to come up with this strategic plan.

Secondly, I wish to thank the strategic plan development committee for the long hours they dedicated in developing this plan. Thirdly, I wish to thank the consultant (Kenya School of Government) for their technical guidance in developing this strategic plan. Last but not least I wish to thank the staff of the Authority and all our stakeholders for your insights during this process.

Eng. Francis Gitau  
Director General, NaMATA

## CONCEPTS AND TERMINOLOGIES

---

**Bus Rapid Transit (BRT):** A high-quality bus-based transit system that delivers fast, comfortable, and cost-effective urban mobility through the provision of segregated right-of-way infrastructure, rapid and frequent operations, and excellence in marketing and customer service.

“Declared transport corridor” means a corridor comprising of a number of individually stated sections of roads or railways which the Authority requires in the discharge of its functions and which has been brought under the jurisdiction of the Authority in order for its quality to be maintained to published standards from the Authority;

**Mass Rapid Transit (MRTS),** also referred to as public transit, is a passenger transportation service, usually local in scope, which is available to any person who pays a prescribed fare. Examples include Bus Rapid Transit, heavy rail transit, and light rail transit.

“**Metropolitan Area**” means the Nairobi Metropolitan Area and includes the counties of Nairobi City, Kiambu, Machakos, Kajiado and Murang’a.

**Non-Motorized Transportation (NMT)** also known as active transportation and human powered transportation includes walking and bicycling, and variants such as small-wheeled transport (cycle rickshaws, skates, skateboards, push scooters and hand carts) and wheelchair travel.

## EXECUTIVE SUMMARY

---

The Strategic Plan for NaMATA has been developed in cognizance of its mandate as stipulated in the Legal Notice No. 18 of February 17, 2017, the Kenya Vision 2030, Fourth Medium Term Plan (MTP IV), the Constitution of Kenya 2010, the Bottom-Up Economic Transformation Agenda, African Union Agenda 2063, Sustainable Development Goals (SDGs) and other prevailing legal and policy documents. The strategic plan has also been developed through a consultative and participatory process which involves both internal and external stakeholders.

**Chapter One** of the Strategic Plan presents the historical development of the Authority. The Chapter also provides the institutional framework which expounds on the mandate of the Authority, its role in the realization of the national development agenda: the Bottom-Up Economic Transformation Agenda, the MTP IV of vision 2030, the SDGs and Africa Union Agenda 2063 aspirations.

**Chapter Two** outlines the strategic direction for the Authority which encompasses the mandate, vision, mission, strategic goals, core values, motto and the quality policy statement.

**Chapter Three** presents the situational analysis focusing on the external and internal environments within which NaMATA operates. An analysis of past performance from the 2018/19 -2022/23 strategic plan as well as stakeholder analysis is also provided.

**Chapter Four** outlines the strategic issues that the Authority seeks to address during the plan period, the goals to be realized and the key result areas linked to the attainment of the strategic goals. To achieve its mandate over the next five years, the authority has established the following three Key Result Areas to guide its activities:

- i. Public Transport System in NMA
- ii. Institutional capacity
- iii. Financial management

**Chapter Five** presents the strategic objectives and strategies for the 2023/24 – 2027/28 strategic planning period with a focus on the outcomes, annual projections and strategic choices to be pursued in order to achieve the identified strategic objectives.

**Chapter Six** outlines the implementation and coordination framework for operationalizing the strategic plan. It comprises the action plan, annual work plan and coordination framework to support implementation of the plan. Further, the chapter provides the risk management framework.

**Chapter Seven** presents the financial resource requirements for implementing the strategic plan, sources of funds, resource gaps, resource mobilization strategies and resource management.

**Chapter Eight** provides the monitoring, evaluation and reporting (ME&R) framework for the Authority that will ensure implementation is on track. ME&R is vital in ensuring that targets are achieved within the plan period. NaMATA will monitor and evaluate the activities, outputs and outcomes to ensure that the objectives of the Plan are attained.

### Overview

This chapter sets the context for strategic planning that includes the national development priorities, regional and international development frameworks. It also provides the history of NaMATA and methodology of developing the strategic plan.

### 1.1. Strategy as an Imperative for Organizational Success

Strategic management has been widely embraced by organizations all over the world in pursuit of achieving efficiency and effectiveness that ultimately lead to competitive advantage over competitors. Organizations employ strategies that will catapult them into better organizational performance. A well implemented strategy leads to improved efficiency and effectiveness in an organization.

In Kenya, strategic management is a concept which until recently had been mainly adopted by private organizations. Historically, public organizations have focused on cost management rather than profit generation however this has changed. Increased environmental turbulence and competition have prompted public organizations to embrace the concept of strategic management with the aim of achieving their objectives.

In the Economic Recovery Strategy (ERS) for Wealth and Employment Creation of 2003-07, the government of Kenya outlined its commitment towards the improvement of the general performance of state-owned corporations through the introduction of strategic planning as a performance management tool. The objectives of introducing strategic planning were to improve service delivery to the public by ensuring that top-level managers were accountable for results; improve efficiency levels and ensure that public resources were focused on attainment of the key national policy priorities of the government; and institutionalize performance-oriented culture in the public service; measure and evaluate performance among others. The Nairobi Metropolitan Area Transport Authority (NaMATA) was established with the mandate of overseeing the establishment of an integrated, efficient, effective and sustainable public transport system within the Nairobi Metropolitan Area (NMA). This huge mandate requires meticulous planning. This strategic plan will therefore contribute greatly towards the realization of the Authority's mandate by providing the strategic direction and choices to be pursued.

### 1.2. The Context of Strategic Planning

The strategic plan will be developed in consideration of national development priorities, regional and international development frameworks.

#### 1.2.1. United Nations 2030 Agenda for Sustainable Development

The United Nations 2030 Agenda for Sustainable Development adopted by all the United Nations Member States in 2015 provides a shared blueprint for peace and prosperity for people and the planet, now and into the future. The Government of Kenya is committed to the attainment of the United Nations Sustainable Developments Goals (SDGs) as adopted by the United Nations General Assembly. SDGs address the economic, social and environmental dimensions of development in a comprehensive and integrated manner. The development of this strategic plan has outlined the Authority's commitment to the attainment of SDG 1, 3, 5, 10, 11 and 13 as described in detail in table 1.1.

Table 1.1: NaMATA's contribution to sustainable development goals

Sustainable Development Goal	Role of NaMATA
<p>SDG 1: No Poverty</p> <p>1.4 By 2030, ensure that all men and women, in particular the poor and the vulnerable, have equal rights to economic resources</p>	<ul style="list-style-type: none"> <li>● Alleviate poverty by increasing economic efficiency through lower transport costs and prices within the metropolitan area (NMA)</li> </ul>
<p>SDG 3: Good health and Well-being</p> <p>3.6 By 2030, halve the number of global deaths and injuries from road traffic accidents</p>	<p>The Authority will contribute to the five pillars of road safety through the following initiatives: -</p> <ul style="list-style-type: none"> <li>● Adoption of bus specifications with in-built safety measures.</li> <li>● Periodic maintenance and inspection of the buses</li> <li>● Competency-based training for drivers</li> <li>● Emergency vehicles will be allowed to use the segregated BRT lanes</li> <li>● Reduced use of private vehicles</li> <li>● Increased use of NMT facilities</li> <li>● Signalized junctions/improved traffic flow</li> </ul>
<p>SDG 5: Gender Equality</p> <p>5.1 End all forms of discrimination against all women and girls everywhere</p> <p>5.2 Eliminate all forms of violence against all women and girls in the public spheres</p> <p>5.4 Recognize and value unpaid care and domestic work through the provision of public services, infrastructure</p>	<ul style="list-style-type: none"> <li>● Provide universal access infrastructure to public transport.</li> <li>● Provide safe and secure public transport system and facilities</li> <li>● Provide scheduled services that recognize women's different travel patterns.</li> <li>● Institutionalise affirmative action in the public transport sector.</li> <li>● Conduct awareness campaigns against Gender Based Violence in Public transport</li> </ul>
<p>SDG 10: Reduced Inequalities</p> <p>10.2 By 2030, empower and promote the social, economic and political inclusion of all, irrespective of age, sex, disability, race, ethnicity, origin, religion or economic or other status</p>	<ul style="list-style-type: none"> <li>● Provide inclusive infrastructure and services in public transport.</li> <li>● Sensitization and awareness campaigns on behaviour change towards treatment of vulnerable public service road users.</li> <li>● Train public service operators</li> <li>● Institutionalise affirmative action in the public transport sector.</li> </ul>
<p>SDG 11: Sustainable cities and communities</p> <p>Goal 11.2 Provide safe, affordable, accessible, and sustainable transport for all by 2030</p>	<ul style="list-style-type: none"> <li>● Safe, efficient, affordable, and reliable PT</li> <li>● Reduced travel time</li> <li>● Encourage travel demand management</li> </ul>

Sustainable Development Goal	Role of NaMATA
	<ul style="list-style-type: none"> <li>Improved first and last mile connectivity.</li> </ul>
SDG 13: Climate Action  13.2 Integrate climate change measures into national policies, strategies and planning  13.B Raise capacity for effective climate change-related planning and management	<ul style="list-style-type: none"> <li>Promote use of sustainable urban mobility solutions</li> <li>Adopt green energy for rolling stock</li> <li>Adopt climate smart infrastructure</li> <li>Leverage on technology in business processes.</li> <li>Maintain green corridors and carbon sinks</li> </ul>

### 1.2.2. African Union Agenda 2063

The Agenda 2063 is a collective vision and roadmap for social economic transformation of the continent that is anchored on seven aspirations under which twenty goals have been identified. It builds on, and seeks to accelerate the implementation of past and existing continental initiatives for growth and sustainable development. NaMATA'S role in Africa Agenda 2063 is reflected in aspirations 10No, 2No and 7No as follows:

NaMATA aims to implement goal no. 10 of the agenda which targets a world class infrastructure including interconnectivity between cities. NAMATA will facilitate the implementation of transport connectivity within the NMA by constructing and operationalizing the five (5) gazetted BRT corridors and ensure effective and efficient management of MRTS. Also, it will ensure seamless integration of transport modes. In Addition, NAMATA will implement goal 2 through enhancement of research and development in public transport and collaborating with research institutions including institutions of higher learning.

NaMATA will implement goal 7 of the agenda by the development of MRTS Infrastructure to cater for sustainable movement of people within the NMA and discourage use of private vehicles that cause congestion.

*Table 1.2: NaMATA's contribution to AU Agenda 2063 goals*

AU Agenda 2063 Goals	Role of NaMATA
<b>Aspiration 1: A prosperous Africa based on inclusive growth and sustainable development</b> Goal 1: A high standard of living, quality of life and wellbeing for all citizens	Establishment of an effective, efficient, reliable and sustainable PT system
<b>Aspiration 1: A prosperous Africa based on inclusive growth and sustainable development</b> Goal 2: Well-educated citizens and skills revolution underpinned by science, technology and innovation	Enhancement of Research and Development in the PT sector through collaborative initiative with institutions of higher learning

<p><b>Aspiration 1: A prosperous Africa based on inclusive growth and sustainable development</b> Goal 4: Transformed economies</p>	<p>Sustainable and Inclusive PT systems to support economic growth</p>
<p><b>Aspiration 1: A prosperous Africa based on inclusive growth and sustainable development</b> Goal 7: Environmentally sustainable and climate resilient economies and communities</p>	<ul style="list-style-type: none"> <li>● Promote use of sustainable urban mobility solutions</li> <li>● Adopt green energy for rolling stock</li> <li>● Adopt climate smart infrastructure</li> <li>● Leverage on technology in business processes.</li> <li>● Maintain green corridors and carbon sinks</li> </ul>
<p><b>Aspiration 2: An integrated continent, politically united and based on the ideals of Pan-Africanism and the vision of Africa’s Renaissance</b>  Goal 10: World class infrastructure criss-crosses Africa</p>	<ul style="list-style-type: none"> <li>● Facilitate the implementation of seamless integrated public transport within the NMA by construction of MRTS corridors</li> </ul>
<p><b>Aspiration 6: An Africa, whose development is people-driven, relying on the potential of African people, especially its women and youth, and caring for children.</b>  Goal 17: Full gender equality in all spheres of life</p>	<ul style="list-style-type: none"> <li>● Provide universal access infrastructure to public transport.</li> <li>● Provide safe and secure public transport system and facilities</li> <li>● Provide scheduled services that recognize women’s different travel patterns.</li> <li>● Institutionalise affirmative action in the public transport sector.</li> <li>● Conduct awareness campaigns against Gender Based Violence in Public transport</li> </ul>

### 1.2.3. East Africa Community Vision 2050

The rationale for the EAC Vision 2050 is to provide a catalyst for the region to enhance transformation, growth and development to propel the community to a higher income cohort and subsequently achieve an upper middle-income status. The vision is anchored on six (6) pillars namely; Infrastructure Development; Agriculture, Food Security and Rural Development; Industrialization; Natural Resources and Environment Management; Tourism, Trade and Services Development; and Human Capital Development.

NaMATA will play a role towards the Infrastructure Development pillar of Vision 2050 that among other things states that at a bare minimum, the region's infrastructure will be transformed to comparable standards of the upper middle-income countries to support the targeted scaling up of the region's economies to middle income levels. At that level, the infrastructure shall be substantially inter-connected, efficient, environmentally friendly, with high speed and safe integrated multi-modal transport systems. NaMATA through either development or coordination with relevant agencies will develop and implement an integrated multi-modal MRTS infrastructure and services. The Authority will also contribute towards the Environment pillar by championing green initiatives such as e-mobility. This will contribute greatly towards reduction of greenhouse emissions.

The vision speaks on capacity development initiatives that will be tailored for both present and anticipated future market needs/demands. These will be designed and implemented to ensure a capable and competitive pool of expertise that benefits the emerging development initiatives in the region. Establishment of centres of excellence in the region will provide a pool of resources that are innovative and competitive globally and is in line with NaMATA's goal of establishing a Public Transport centre of excellence.

NaMATA is also aligned to the industrialization pillar of the community - manufacturing, in particular the auto industry as we move into fleet acquisition the authority is at the forefront of bus standards improvement. Local talent is being built and encouraged for local assembly of the public transport vehicles.

#### **1.2.4. Constitution of Kenya, 2010**

The 2023/24 – 2027/28 Strategic Plan is anchored on the Constitution of Kenya. NaMATA's role in coordinating and planning transportation in the Nairobi Metropolitan Area is integral to realizing the constitutional principles of devolution, public participation, economic and social rights, environmental sustainability, and the rights of marginalized and minority groups. The Authority's strategic plans play a crucial role in translating these constitutional principles into actionable initiatives that improve the overall quality of life for residents in the region.

##### **a. Devolution and County Governments (Article 6, 191):**

The Constitution emphasizes the principle of devolution, granting significant powers and functions to county governments.

NaMATA, in planning and coordinating public transportation within the Nairobi Metropolitan Area that comprises Nairobi County, Kajiado, Kiambu, Machakos and Murang'a counties and will collaborate with these county governments to align plans with the specific needs and priorities of the respective counties.

##### **b. Right to Accessible and Adequate Public Transport (Article 42):**

The Constitution recognizes the right of every person to accessible and adequate public transport. NaMATA's initiative would improve public transportation services and contribute to realising this constitutional right for residents in the Nairobi Metropolitan Area.

##### **c. National Values and Principles of Governance (Article 10):**

The Constitution outlines national values and principles of governance, including public participation, accountability, and sustainable development.

NaMATA would align with these principles by involving the public in decision-making processes, ensuring accountability in the use of resources, and incorporating sustainability measures in the provision of public transportation infrastructure and services.

##### **d. Economic and Social Rights (Article 43):**

The Constitution guarantees economic and social rights, including the right to accessible and adequate housing and reasonable standards of sanitation. Transportation is a critical component of ensuring access to various services, and NaMATA would improve infrastructure and public transport contributing to the realization of these rights.

e. Environmental Sustainability (Articles 69, 70):

The Constitution includes provisions for environmental conservation and sustainable development. NaMATA would incorporate measures to minimize the environmental impact of transportation, aligning with constitutional provisions for sustainable development and environmental protection.

f. Participation of Marginalized and Minority Groups (Article 54, 56):

The Constitution recognizes the rights of marginalized and minority groups, including their right to accessible and adequate services. NaMATA would ensure inclusive and equitable participation in the provision of public transport infrastructure and services as envisioned in Article 54 and 56 of the Constitution of Kenya.

### **1.2.5. Kenya Vision 2030, Bottom-up Economic Transformation Agenda and Fourth Medium Term Plan**

The Kenya Vision 2030 articulates the national development agenda and outlines the process of transforming Kenya into a newly-industrialized middle-income country. It envisions a high quality of life for all citizens by the year 2030 in a clean and secure environment. The Vision is anchored on three pillars; Economic, Social, and Political and is implemented through successive five-year Medium-Term Plans.

MTP IV focuses on the implementation of strategic interventions aimed at driving Kenya's economy towards a sustainable growth path. The Plan has adopted the theme '*Accelerating socio-economic transformation to a more competitive, inclusive and resilient economy*', and is anchored on the Kenya Kwanza's government five core pillars that are expected to have the highest impact at the bottom of the economy. The five pillars are: Agricultural Transformation and Inclusive Growth; transforming the Micro, Small and Medium Enterprise (MSMEs) Economy; Housing and Settlement; Healthcare; and Digital Superhighway and Creative Economy. The MTP IV will implement the Kenya Kwanza Bottom-Up Economic Transformation Agenda (BeTA) that will drive the economic turnaround and inclusive growth agenda for Kenya.

#### **a. Role of NaMATA in Bottom-up Economic Transformation Agenda (BETA)**

Infrastructure has been identified as one of the key enablers of the BETA agenda of the National Government. It is with the aforementioned that NaMATA will construct MRTS systems which will promote the movement of the masses and thus foster economic growth in the NMA.

To foster Digital & Creative Economy NaMATA will integrate the use of technology in the planning, management and operations of Public Transport Systems within the NMA(ITS).

Climate Action has also been identified as one of the Economic enablers for the National Government. The Authority will adopt E-mobility in its BRT Corridors and this is supported by EU, EIB and AFD in implementation of Clean Core BRT Corridor from Dandora- Juja Rd -CBD-KNH that will have 120 Electric buses for the first phase of the project. NaMATA's contribution to the five pillars is summarized in table 1.3.

Table 1.3: NaMATA's contribution to the five pillars

BETA Pillar	Role of NaMATA
Digital super highway & Creative Economy	<ul style="list-style-type: none"> <li>Integration of Technology in the Planning, Management and Operations of PT systems within the NMA</li> </ul>
Infrastructure	<ul style="list-style-type: none"> <li>Developing and implementing Sustainable MRTS which will promote the movement of the masses.</li> <li>Adoption of low emission rolling stock</li> <li>Promotion of active mobility.</li> </ul>
Housing and settlement	<ul style="list-style-type: none"> <li>Develop and implement land use and transport master plans that align PT developments with affordable Housing Projects.</li> <li>Provide efficient connectivity and movement to upcoming communities in the Affordable Housing Projects to increase human dignity.</li> </ul>
Micro, Small and Medium Enterprise (MSME) Economy:	<ul style="list-style-type: none"> <li>Supporting Local Entrepreneurs providing them with business opportunities related to transportation, such as operating feeder bus services or managing bus stops and terminals.</li> <li>Facilitate the formalization of public transport operators to bus operating companies</li> <li>Expansion and improved employment opportunities for drivers and conductors to administrative staff and</li> <li>Promote local assembly of buses and other value chain addition services.</li> </ul>

#### b. Role of NaMATA in Kenya Vision 2030

The Authority is planning to support vision 2030 as per sub -item (k) of the roads sub-sector which mentions “Decongestion of Cities and Urban Areas”. BRT will look to improve the congestion in the urban set up through efficient, timely movement of people in the NMA and promote shifting of use of private vehicle users to public transport.

The Authority activities contribute to the economic, social and infrastructure development goals outlined in the Kenya Vision 2030. On focusing on an integrated and sustainable public transport system, the Authority plays a vital role in shaping the future of the NMA in alignment with the broader national vision for 2030 as summarized in table 1.4 below.

Table 1.4: NaMATA's contribution to vision 2030 pillars

Vision 2030 Pillars	Role of NaMATA
Economic	<ul style="list-style-type: none"> <li>Establishment of an integrated efficient and sustainable transport system that supports economic development by enhancing connectivity and reducing transportation costs of people.</li> <li>Provision of formal employment in the public transport sector.</li> </ul>
Social	<ul style="list-style-type: none"> <li>Transform the quality of life by enhancing accessibility to education, healthcare facilities and other social services.</li> <li>Promote sustainable public transport modes</li> </ul>

Political	<ul style="list-style-type: none"> <li>● Coordination and partnership with the NMA county governments in the provision of integrated and efficient public transport services.</li> <li>● Collaboration with other government agencies in the transformation of public transport within NMA.</li> <li>● Liaise with relevant parliamentary committees to marshal support and political goodwill.</li> </ul>
-----------	--

**1.2.6. Sector Policies and Laws**

This section outlines sector specific policies, laws, international treaties and conventions which have direct impact on the operations of the Authority and how they are integrated within the strategic plan:

**a. NaMATA Executive Order**

The Legal Notice No. 18 of 2017 established the Authority making it a corporate body charged with the responsibility of transforming public transport in NMA through provision of a sustainable public transport system.

**b. The County Government Act, 2012**

The act gives effect to Chapter Eleven of the Constitution to provide for county governments' powers, functions and responsibilities to deliver services.

**c. Roads Act, 2007**

The Act establishes the road agencies that are responsible for the management, development, rehabilitation and maintenance of roads in Kenya. The Authority shall coordinate with the road agencies namely; KeNHA, KURA and KeRRA to ensure that declared corridors are developed and maintained to the set standards and specifications.

**d. National Transport and Safety Authority Act, 2012**

The Act establishes the National Transport and Safety Authority that is responsible for road transport and safety management in Kenya. The Authority shall partner with NTSA to ensure that the BRT rolling stock and infrastructure promote road transport safety.

**e. Kenya Railways Corporation Cap 397**

The Act establishes Kenya Railways whose function is to provide a coordinated and integrated rail system within Kenya. The Authority shall coordinate with KRC to ensure that the development and operations of the NMA rail system are within the established standards.

**f. Standards Cap 496**

This establishes the Kenya Bureau of Standards that is responsible for preparing, framing, modifying or amendment of specifications or codes of practice. The Authority shall collaborate with KeBS to ensure that the standards and specifications are adopted and adhered to.

**g. Traffic Cap 403**

This gives the traffic department in NPS power to enforce traffic laws and regulations. The Authority will collaborate with the traffic department to ensure compliance of regulations related to traffic within the Nairobi Metropolitan Area.

**h. Kenya Roads Board Act, 1999**

This establishes the Kenya Roads Board that oversees the road networks and coordinated development, rehabilitation and maintenance funded by RMLF. The Authority shall propose revision of legislation so as to benefit from RMLF.

**i. Other laws that impact the operations of the Authority**

- 1) Road Maintenance Levy Fund Act, 1993
- 2) Inter-Governmental Relations Act
- 3) EMC Act, 1999
- 4) Climate Change Act
- 5) PPP Act, 2021
- 6) PFM Act, 2012
- 7) PPAD Act, 2015
- 8) State Corporations Act
- 9) Consumer Protection Act
- 10) Copyrights Act, 2001
- 11) Employment Act, 2017
- 12) Data Protection Act, 2019
- 13) Fair Administrative Action Act

**j. Sector Specific Policies that impact the operations of the Authority and are integrated into the strategic plan**

- 1) Integrated National Transport Policy (2009) (2024)
- 2) National Climate Change Policy 2016
- 3) Environmental Management Policy
- 4) Data Protection Policy
- 5) National Urban Development Policy

**k. Other International and Regional Obligations and Conventions**

The Authority is cognizant of the international and regional obligations to which Kenya is committed to. This Plan has thus taken into account the various international obligations and conventions which are embedded in its operations. These are summarized in table 1.5 below.

*Table 1.5: Other International and Regional Obligations and Conventions*

<b>Obligations and Conventions</b>	<b>Obligation</b>	<b>Relevance to NaMATA</b>
Vienna Convention on Road Traffic	An international treaty designed to facilitate international road traffic and to increase road safety by establishing standard traffic rules among the contracting parties.	The Conventions principles and regulations can serve as valuable guidelines for standardizing and regulating road traffic within the Nairobi Metropolitan Area,

		thereby contributing to improved road safety and efficiency.
United Nations Framework on climate change (Kyoto protocol)	An international agreement that sets binding targets for 37 industrialized countries and the European community for reducing greenhouse gas (GHG) emissions.	The Kyoto protocol principles and mechanisms can inform and support NAMATA's efforts to promote sustainable and climate-resilient transportation within the Nairobi Metropolitan Area. By aligning with the goals of the protocol, NAMATA can contribute to Kenya's overall efforts to address climate change and reduce greenhouse gas emissions.
The ILO conventions	The ILO Conventions cover a wide area of social and labour issues including basic human rights, minimum wages, industrial relations, employment policy, social dialogue, social security and other issues.	Adherence to ILO conventions can help NAMATA ensure that labor standards and practices within the transportation sector in the Nairobi Metropolitan Area are in line with international norms. By promoting fair and decent work for transport workers, NAMATA can contribute to a more sustainable and equitable transportation system.

### 1.3 History of NaMATA

In 2003 an inter-agency committee was formed by the then Minister for Transport to address problems affecting all sub-sectors of transport in the country. The committee came up with an Integrated National Transport policy that was approved by the Cabinet in 2009 and by Parliament as Sessional Paper no. 2 of 2012. Among other recommendations was development of Mass Rapid Transit System (MRTS) comprising of Bus Rapid transit, Light Rail, metro system and an elaborate non-motorized transport network and to implement the integrated transport agenda within the Nairobi Metropolitan Area (NMA) through the establishment of the Nairobi Metropolitan Area Transport Authority (NaMATA). This recommendation was anchored in the Vision 2030 and subsequent Medium-Term Plans.

This led to the signing of MOU to establish NaMATA on 21st October 2014 between the Governors of the five NMA Counties of Nairobi City, Kajiado, Kiambu, Machakos, and Murang'a on one hand and the Cabinet Secretary for Transport and Infrastructure on the other hand. This paved the way for the establishment of the Nairobi Metropolitan Area Transport Authority (NaMATA) Steering Committee through Gazette Notice No. 1093 of 20th February 2015. A secretariat was also put in place to support the day-to-day operations of the committee.

In February 2017, Nairobi Metropolitan Area Transport Authority (NaMATA) was established through an executive order by His Excellency the President through the Legal Notice No. 18 of 17th February 2017. The main objective was to develop a sustainable integrated public transport strategy and a sustainable urban mobility plan for the Metropolitan Area.

A Mass Rapid Transit System (MRTS) map was developed for the Nairobi Metropolitan Area and it identified five (5) Bus Rapid Transit corridors with provision for upgrade to light rail and integration locations with the current commuter rail. These corridors are at various stages of implementation. The

technical/institutional set up to support the initiatives are being executed by different road agencies under the Ministry of Roads and Transport. This stakeholder/agency multiplicity has created challenges in the definition of transport integration and sustainability principles along the predetermined MRTS corridors, hence the pertinence for the establishment of NaMATA.

#### **1.4 Methodology of Developing the Strategic Plan**

This strategic plan was developed through a consultative and participatory process which involved the Board, NMA Council, management, staff and external stakeholders. Specifically, the process started with a comprehensive desk review of relevant documents, reports and data to inform the inception report and data collection tools. Primary data was collected through a structured questionnaire and focus group discussions held with the management and strategic planning committee.

A detailed performance evaluation of the 2018/19-2022/23 Strategic Plan was undertaken to establish key achievements, challenges, lessons learnt and identified gaps that have been addressed in the 2023/24-2027/28 plan period. An analysis of the external and internal environments was undertaken to establish the strategic thrust and identify suitable strategic interventions. Strategic planning sessions were conducted with the Board, management and the strategic planning committee to provide more insight, generate agreements around the various strategic elements which guided and informed the strategic plan development. A final review and validation of the entire strategic plan was undertaken with both internal and external stakeholders in readiness for validation.

[Follow up steps to be provided later](#)

### Overview

This chapter provides the strategic direction for the Authority which encompasses the mandate, vision, mission, strategic goals, core values, motto and the quality policy statement.

### 2.1. Mandate and Functions

The mandate of the Authority is to oversee the establishment of an integrated, efficient, effective and sustainable public transport system within the Nairobi Metropolitan Area (NMA). The Authority shall:

- a) Develop, formulate and implement strategies, plans and policies in relation to public transport.
- b) Coordinate the development, management and maintenance of MRTS with other government agencies and parties
- c) Regulate and enter into agreements with MRTS Operators and Service Providers
- d) Undertake Integration of all modes of transport, as well as transport and land use planning
- e) Undertake Research and development to provide for evidence based MRTS network
- f) Improve the environmental sustainability of the transport system in the Metropolitan Area

### 2.2. Vision Statement

The Authority's vision statement is;

*A safe, reliable, affordable and seamless public transport system.*

### 2.3. Mission Statement

The Authority's Mission statement is;

*To develop, maintain, regulate and manage an integrated and sustainable public transport for enhanced urban mobility within the Nairobi Metropolitan Area.*

### 2.4. Strategic Goals

The Authority hopes to achieve the following strategic goals during the strategic planning period in respect of the various strategic issues identified in 4.2:

- a) Improve urban mobility within NMA
- b) Improve the environmental sustainability of the transport systems in the Metropolitan Area
- c) Improve organizational efficiency and effectiveness
- d) Improve financial sustainability and stewardship

### 2.5. Core Values

The pursuit of NaMATA's vision and mission shall be guided by core values which create a common sense of commitment and build internal and external trust.

The core values are:

- a) **Integrity**  
We commit to consistently uphold the highest ethical standards, demonstrating honesty and fairness in our dealings with all stakeholders.
- b) **Customer focus**

- We endeavor to exceed customer expectations by building a culture of service excellence among all our staff.
- c) **Innovativeness**  
We commit to leverage on the capacity of our youthful and agile team to create an innovation culture within the Authority.
  - d) **Inclusivity**  
We commit to include all types of people, things or ideas and treat them all fairly and equally
  - e) **Teamwork**  
All our staff will collaborate effectively with colleagues and contribute to team goals hence realize the Authority's mandate
  - f) **Professionalism**  
We commit to high standards of professionalism through respect for clients, reliability, effective communication, cultural sensitivity and effective conflict resolution

## 2.6. Motto

The Authority's motto statement is;  
*Advancing Mobility*

## 2.7. Quality Policy Statement

NAMATA is committed to provide a high-quality public transport system that is integrated and sustainable within the Nairobi Metropolitan Area. Our quality policy is driven by dedication to excellence, innovation, and continuous improvement in all aspects of our operations. Our commitment to quality is reflected in the following principles:

1. **Customer Satisfaction:** We aim to understand and exceed the expectations of our customers through continuously improving our customer complaints procedure, regular gathering and monitoring of customer feedback and delivering safe, reliable, efficient, and accessible transport system.
2. **Safety and Security:** We prioritize the safety and security of all passengers, employees, and stakeholders in every aspect of our operations. We are committed to providing a safe environment for travel and work.
3. **Environmental Responsibility:** We recognize our responsibility to minimize the environmental impact of our operations. We will implement sustainable practices and initiatives to reduce emissions, conserve resources, and protect the environment.
4. **Compliance and Legal Requirements:** We are committed to complying with all relevant laws, regulations, and industry standards governing transport operations. We will uphold the highest ethical standards and promote transparency in our activities.
5. **Continuous Improvement:** We foster a culture of continuous improvement, where every member of our team is empowered to identify opportunities for enhancement and innovation. We will regularly review our processes, systems, and performance to ensure we are achieving our quality objectives.
6. **Stakeholder Engagement:** We value the input and feedback of our stakeholders, including passengers, employees, partners, and the community. We will actively engage with stakeholders to understand their needs and concerns, and incorporate their perspectives into our decision-making processes.

7. **Training and Development:** We invest in the training and development of our employees to ensure they have the skills, knowledge, and resources necessary to deliver high-quality services and uphold our quality standards.

DRAFT

## CHAPTER THREE: SITUATIONAL AND STAKEHOLDER ANALYSIS

### Overview

This chapter presents the situational analysis focusing on the external and internal environments within which NaMATA operates. An analysis of past performance from the 2018/19 -2022/23 strategic plan as well as stakeholder analysis is also provided.

### 3.1. Situational Analysis

#### 3.1.1. External Environment

An analysis of NaMATA’s external environment was undertaken to appreciate the implications of developments in the external environment as manifested in opportunities and/or threats.

##### 3.1.1.1. Macro-environment

PESTEL analysis was undertaken to analyse the macro-environmental factors that can impact decision making and the Authority's performance. Analysis of these factors will enable NaMATA to plan better and develop strategies to minimize the threats and maximize opportunities. A description of the PESTEL factors and their implication on strategy is provided below in table 3.1.

*Table 3.1: PESTEL factors and their implication on strategy*

Category	Factor	Strategic implication	Strategic Response
<b>Opportunities</b>			
<b>Political</b>	Political stability	<ul style="list-style-type: none"> <li>● Promotes investor confidence</li> <li>● Safeguards security of infrastructure</li> <li>● Ensures timely delivery of public transport programmes</li> <li>● Enhances stability of currency ensuring projects are implemented within budget</li> </ul>	<ul style="list-style-type: none"> <li>● Enhance mobilization of financial resources</li> <li>● Enhance legal and regulatory framework</li> <li>● Strengthen partnerships and collaborations</li> <li>● Secure investments such as PPP</li> <li>● Sensitize communities on safeguarding infrastructure</li> <li>● Promote use of new public transport systems; acquire social license for projects</li> <li>● Continuous capacity building and sensitization of political class</li> </ul>

Category	Factor	Strategic implication	Strategic Response
	Political good will from both national and county governments	<ul style="list-style-type: none"> <li>● Support in transformation of public transport</li> <li>● Allocation of budget</li> <li>● Creates an enabling legal and regulatory environment</li> <li>● Enhances implementation of administrative policies, processes and procedures</li> </ul>	<ul style="list-style-type: none"> <li>● Secure financing</li> <li>● Propose amendments to applicable laws and regulations</li> <li>● Improve engagements with the national and county governments</li> <li>● Seek relevant approvals</li> <li>● Advocate for operationalization of pool funding from the five (5) NMA counties</li> </ul>
	Government policies and directives	<ul style="list-style-type: none"> <li>● Enhanced funding</li> <li>● Support for transport infrastructure initiatives</li> <li>● Enhances implementation of administrative policies, processes and procedures</li> <li>● Enhances stakeholder acceptance</li> <li>● Promotes investments</li> </ul>	<ul style="list-style-type: none"> <li>● Secure financing</li> <li>● Acquire social license for projects</li> <li>● Secure investments such as PPP</li> <li>● Improve engagements with stakeholders</li> <li>● Propose favorable provisions in policy, legal and regulatory framework</li> </ul>
<b>Threats</b>			
<b>Political</b>	Government policies and directives	<ul style="list-style-type: none"> <li>● Reduces funding</li> <li>● Delays in implementation of Authority's initiatives</li> <li>● Discourage stakeholder support</li> <li>● Erodes investor confidence</li> <li>● Low priorities on public transport projects and initiatives</li> </ul>	<ul style="list-style-type: none"> <li>● Secure financing</li> <li>● Acquire social license for projects</li> <li>● Secure investments such as PPP</li> <li>● Improve engagements with stakeholders and encourage active communication</li> <li>● Engage in proactive advocacy and propose favourable provisions in policy, legal and regulatory framework</li> <li>● Identify a political champion for public transport transformation within NMA</li> </ul>

Category	Factor	Strategic implication	Strategic Response
			<ul style="list-style-type: none"> <li>● Develop contingency plans for potential policy changes</li> <li>● Comply with existing and align with changes in government policies and directives</li> </ul>
	Competing interests	Delays in implementation of Authority's initiatives Change of project plans Increase in project costs	<ul style="list-style-type: none"> <li>● Stakeholder engagement</li> <li>● Advocate for continuity of project implementation and initiatives</li> <li>● Balance implementation of public transport projects and initiatives across all NMA counties</li> </ul>
	Political instability	<ul style="list-style-type: none"> <li>● Erodes investor confidence</li> <li>● Vandalism of transport infrastructure</li> <li>● Delays in implementation of Authority's initiatives</li> <li>● Increased project costs</li> </ul>	<ul style="list-style-type: none"> <li>● Enhance mobilization of financial resources</li> <li>● Enhance legal and regulatory framework</li> <li>● Strengthen partnerships and collaborations</li> <li>● Secure investments such as PPP</li> <li>● Sensitize communities on safeguarding infrastructure</li> <li>● Promote use of new public transport systems; acquire social license for projects</li> <li>● Continuous capacity building and sensitization of political class</li> <li>● Balance implementation of public transport projects and initiatives across all NMA counties</li> </ul>

Category	Factor	Strategic implication	Strategic Response
<b>Opportunities</b>			
<b>Economic</b>	Fiscal (taxes, subsidies) and monetary (interest, inflation and exchange rates) factors	<ul style="list-style-type: none"> <li>● Increased consumer purchasing power</li> <li>● Sustainable project and operational costs</li> <li>● Boost investor confidence</li> <li>● Increased demand for public transport services</li> <li>● Increased financing for transport projects</li> </ul>	<ul style="list-style-type: none"> <li>● Fast-track implementation of projects</li> <li>● Diversify funding sources               <ul style="list-style-type: none"> <li>-Explore public-private partnerships</li> <li>-Develop flexible financial models to adapt to changing economic conditions</li> </ul> </li> <li>● Expand services offered to cater for increased demand</li> <li>● Secure investments such as PPP</li> </ul>
	Macro-economic factors (GDP growth, employment, national income)	<ul style="list-style-type: none"> <li>● Increased demand for public transport services</li> <li>● Increased consumer purchasing power</li> </ul>	<ul style="list-style-type: none"> <li>● Expand services offered to cater for increased demand</li> <li>● Increase investments in MRTS</li> </ul>
<b>Threats</b>			
<b>Economic</b>	Economic recession (Weakening currency, increased inflation, Increase in tax)	<ul style="list-style-type: none"> <li>● Erodes investor confidence</li> <li>● Capital flight</li> <li>● Reduced disposable income</li> <li>● Increase in pending bills</li> <li>● Reduced demand for public transport services</li> <li>● Reduced financing</li> </ul>	<ul style="list-style-type: none"> <li>● Secure investments such as PPP</li> <li>● Diversify funding sources               <ul style="list-style-type: none"> <li>-Develop flexible financial models to adapt to changing economic conditions</li> </ul> </li> <li>● Prioritize and phase projects based on funding availability</li> </ul>

Category	Factor	Strategic implication	Strategic Response
<b>Opportunities</b>			
<b>Social</b>	Urbanization	<ul style="list-style-type: none"> <li>● Increased demand for public transport services</li> <li>● Increased revenue</li> <li>● Increased rural urban migration</li> </ul>	<ul style="list-style-type: none"> <li>● Increase investments in MRTS</li> <li>● Expand services offered to cater for increased demand</li> <li>● Develop and implement land use planning strategies (TOD)</li> </ul>
	Societal values, demographics, and lifestyle changes	<p>Changing consumer preferences and mobility patterns</p> <p>Increased preference for public transport and NMT</p>	<ul style="list-style-type: none"> <li>● Increase investments in MRTS</li> <li>● Expand services offered to cater for increased demand</li> <li>● Conduct regular market research</li> <li>● Engage with communities to understand cultural dynamics</li> <li>● Tailor services to meet diverse societal needs and preferences</li> </ul>
	Trends in communication	<p>Change in perceptions</p> <p>Marketing MRTS</p>	<ul style="list-style-type: none"> <li>● Incorporate social media in marketing strategies</li> <li>● Leverage current marketing trends</li> </ul>
	Social license	Impacts delivery of the Authority's mandate	<ul style="list-style-type: none"> <li>● Develop strategies to address community concerns and build support</li> <li>● Social impact assessments</li> <li>● Community Engagement to encourage public acceptance</li> </ul>
<b>Threats</b>			
<b>Social</b>	Societal values, demographics, and lifestyle changes	<ul style="list-style-type: none"> <li>● Changing consumer preferences and mobility patterns</li> </ul>	<ul style="list-style-type: none"> <li>● Increase investments in MRTS</li> </ul>

Category	Factor	Strategic implication	Strategic Response
		<ul style="list-style-type: none"> <li>● Decreased preference for public transport and NMT</li> </ul>	<ul style="list-style-type: none"> <li>● Expand services offered to cater for increased demand</li> <li>● Conduct regular market research to monitor societal trends</li> <li>● Engage with communities to understand cultural dynamics</li> <li>● Tailor services to meet diverse societal needs and preferences</li> </ul>
	Trends in communication	<ul style="list-style-type: none"> <li>● Misinformation (wrong facts)</li> <li>● Disinformation (deliberately false - rumours, propaganda)</li> </ul>	<ul style="list-style-type: none"> <li>● Continuous stakeholder engagements</li> <li>● Robust communication plan - documentaries, conferences, fora, shows</li> </ul>
	Urbanization	<ul style="list-style-type: none"> <li>● Uncontrolled urban development</li> <li>● Encroachment of corridors</li> <li>● Unmet public transport demand</li> </ul>	<ul style="list-style-type: none"> <li>● Proper demarcation of corridors</li> <li>● Continuous surveillance of corridors</li> <li>● Public sensitization</li> <li>● Develop and implement land use planning strategies (TOD)</li> <li>● Invest in development and implementation of the sustainable urban mobility plan</li> </ul>
	Ignorance and violation of traffic rules by motorists and other users	<ul style="list-style-type: none"> <li>● Low service levels of the public transport system</li> <li>● Increased accidents and incidents</li> </ul>	<ul style="list-style-type: none"> <li>● Enforcement of public transport rules and regulations in collaboration with relevant agencies</li> <li>● Sensitization and awareness creation</li> </ul>

Category	Factor	Strategic implication	Strategic Response
	Community resistance	Inhibits delivery of the Authority's mandate	<ul style="list-style-type: none"> <li>• Develop strategies to address community concerns and build support</li> <li>• Social impact assessments</li> <li>• Community Engagement to encourage public acceptance</li> </ul>
<b>Opportunities</b>			
<b>Technological</b>	Technological advancement and innovation	Increased efficiency, effectiveness and competitiveness in business processes	<ul style="list-style-type: none"> <li>• Research, innovation and development</li> <li>• Technological strategy</li> <li>• Collaborate with tech partners for innovative solutions</li> </ul>
	Rapid technological advancements in transportation (E-ticketing, E-parking, Telecommuting)	Invest in technological advancements to increase efficiency. Increased demand for NMT infrastructure	Development of Intelligence Transport System (ITS) and integrated management information system  Development of NMT infrastructure
	Advanced communications and technological systems (e.g., E-procurement, E-government, Online banking, E-communication, Cloud computing, fourth industrial revolution)	Integration of communication networks between NaMATA and other Stakeholders. Opportunity for NaMATA to improve operational efficiency and effectiveness. Enhanced information dissemination. Enhanced transparency and accountability.	<ul style="list-style-type: none"> <li>• Automation of Authority services</li> </ul>
	Increased investment in Research and Development	Increased innovation in service delivery. Improved efficiency in MRTS development and operation. Low-cost technologies in operation of public transport. Improvement in data analysis capabilities	<ul style="list-style-type: none"> <li>• Establishment of data management centre</li> <li>Investment on modern data analysis softwares</li> </ul>

Category	Factor	Strategic implication	Strategic Response
<b>Threats</b>			
<b>Technological</b>	Rapid technological advancements (Telecommuting)	<ul style="list-style-type: none"> <li>● Leads to disruptions or render existing systems obsolete</li> <li>● reduced ridership for public transport</li> </ul>	<ul style="list-style-type: none"> <li>● Robust change management plan</li> </ul>
	Capacity challenges in the uptake of technology deployed for public use	<ul style="list-style-type: none"> <li>● Low uptake of services</li> </ul>	<ul style="list-style-type: none"> <li>● Continuous sensitization and awareness on technologies</li> </ul>
	Information security	<ul style="list-style-type: none"> <li>● Increased vulnerability to information security threats</li> </ul>	<ul style="list-style-type: none"> <li>● Development of an integrated information security management plan</li> </ul>
<b>Opportunities</b>			
<b>Ecological</b>	Climate change and pandemic	<ul style="list-style-type: none"> <li>● Global need for environmentally sustainable practices in the implementation of programs and projects.</li> <li>● Creation of Green Job opportunities</li> <li>● Participation in Global and National campaigns for climate action</li> </ul>	<ul style="list-style-type: none"> <li>● Develop and implement eco-friendly initiatives</li> <li>● Invest in sustainable infrastructure</li> <li>● Create contingency plans to address challenges posed by ecological changes</li> <li>● Compliance with legal and regulatory framework</li> <li>● Planning and budgeting for transport corridors and facilities to ensure climate adaptation, mitigation and resilience</li> <li>● Develop and Implement disaster preparedness and recovery plans</li> </ul>

Category	Factor	Strategic implication	Strategic Response
<b>Threats</b>			
<b>Ecological</b>	Climate change and pandemics	<ul style="list-style-type: none"> <li>● Damage to transport infrastructure and facilities</li> <li>● Disruption of operations</li> </ul>	<ul style="list-style-type: none"> <li>● Develop comprehensive disaster preparedness plans</li> <li>● Adopt sustainable practices, and actively contribute to environmental initiatives to address ecological threats.</li> <li>● Develop contingency plan for environmental risks</li> </ul>
	Increased motorization	Increase in emission of Greenhouse Gases	<ul style="list-style-type: none"> <li>● Encourage modal shift from private car use to public transport and active mobility</li> </ul>
	Pollution (soil, air, noise and water)	<ul style="list-style-type: none"> <li>● Blockage of drainage systems.</li> <li>● Increased health hazards</li> </ul>	<ul style="list-style-type: none"> <li>● Compliance with legal and regulatory framework</li> <li>● Establishment of environmental management action plan (EMAP)</li> </ul>
<b>Opportunities</b>			
<b>Legal</b>	Current and emerging legal and regulatory environments	<ul style="list-style-type: none"> <li>● Enhance sector alignment</li> <li>● Enhance project portfolio</li> </ul>	<ul style="list-style-type: none"> <li>● Constantly sensitize stakeholders on emerging legislations</li> <li>● Align projects and programs with emerging legislations</li> <li>● Proactively engage in shaping favourable regulatory framework for the Authority</li> </ul>

Category	Factor	Strategic implication	Strategic Response
<b>Threats</b>			
<b>Legal Factors</b>	Changes in legal and regulatory environment	Non recognition of NaMATA's role in the development of MRTS operations, infrastructure and land use planning	<ul style="list-style-type: none"> <li>Propose consequential amendments to clarify roles and responsibilities among transport and planning authorities</li> </ul>
	Frequency of litigations	Hamper operations	<ul style="list-style-type: none"> <li>Undertake legal risk assessments</li> </ul>
		Lack of integration of land use planning and transport planning	<ul style="list-style-type: none"> <li>Development of Urban Mobility Plan</li> </ul>

### 3.1.2. Summary of Opportunities and Threats

Based on the analysis of the external environment, a summary of opportunities and threats is provided in table 3.2 below:

*Table 3.2: Summary of Opportunities and Threats*

Environmental Factor	Opportunity	Threat
<b>Political</b>	<ol style="list-style-type: none"> <li>i. Political stability</li> <li>ii. Political good will from both national and county governments</li> <li>iii. Government policies and directives</li> </ol>	<ol style="list-style-type: none"> <li>i. Government guidelines and directives</li> <li>ii. Competing interests</li> <li>iii. Political instability</li> </ol>
<b>Economic</b>	<ol style="list-style-type: none"> <li>i. Fiscal (taxes, subsidies) and monetary (interest, inflation and exchange rates) factors</li> <li>ii. Macroeconomic factors (GDP growth, employment, national income)</li> </ol>	Economic recession (Weakening currency, increased inflation, Increase in tax)
<b>Social</b>	<ol style="list-style-type: none"> <li>i. Urbanization</li> <li>ii. Societal values, demographics, and lifestyle changes</li> <li>iii. Communication</li> <li>iv. Social license</li> </ol>	<ol style="list-style-type: none"> <li>i. Urbanization</li> <li>ii. Societal values, demographics, and lifestyle changes</li> <li>iii. Ignorance and violation of traffic rules by motorists and other users</li> </ol>

		iv. Community resistance
<b>Technological</b>	<ul style="list-style-type: none"> <li>i. Technological advancements.</li> <li>ii. Advanced communications and technological systems (e.g., E-procurement, E-government, E-ticketing, E-packing, Online banking, E-communication, Cloud computing, fourth industrial revolution)</li> <li>iii. Increased investment in Research and Development</li> </ul>	<ul style="list-style-type: none"> <li>i. Rapid technological advancements</li> <li>ii. Inadequate contractor/Consultant capacity/skills</li> <li>iii. Rapid technological disruptions</li> <li>iv. Security risk</li> </ul>
<b>Ecological</b>	<ul style="list-style-type: none"> <li>i. Environmental factors, including pandemics and climate change</li> <li>ii. Growing awareness of environmental sustainability</li> <li>iii. Climate change/ Global warming and natural calamities such as flooding</li> <li>iv. National and global campaigns towards climate action</li> </ul>	<ul style="list-style-type: none"> <li>i. Environmental challenges such as pandemics or climate change</li> <li>ii. Poorly maintained vehicles and increased motorization</li> <li>iii. Poor waste disposal</li> <li>iv. Floods and extreme heat have an impact on the resilience of infrastructure.</li> <li>v. Poor climatic conditions</li> </ul>
<b>Legal</b>	<ul style="list-style-type: none"> <li>i. Existing legal and regulatory requirements</li> <li>ii. Coordination of government agencies and other parties for the development and operation of transport infrastructure, facilities and works</li> <li>iii. integration of transport and land use planning in the Metropolitan Area;</li> <li>iv. Declaration of MRTS transport corridors</li> </ul>	<ul style="list-style-type: none"> <li>i. Changes in legal and regulatory requirements</li> <li>ii. Litigation</li> </ul>

### 3.1.3. Internal Environment

Internal factors that could impact the Authority's success were analyzed. These factors focused on examining the governance and administrative structures, internal business processes and resources capabilities. Governance and administrative structures focused on examining governance structures, internal policies, structures, decision making arrangements and reporting relationships. Internal business processes analyzed systems, processes, and standard operating procedures. Resources and capabilities assessed the tangible, intangible and organizational capabilities to identify potential strengths and weaknesses.

### 3.1.4. Summary of Strengths and Weaknesses

Based on analysis of the internal environment, a summary of strengths and weaknesses is provided in table 3.3.

Table 3.3: Summary of Strengths and Weaknesses

Factor	Strength (an internal favorable situation)	Weakness (an internal unfavorable situation)
<b>Governance and Administrative Structures</b>	<ul style="list-style-type: none"> <li>a. Clear Mandate as provided for in the Legal Notice No.18 of 2017</li> <li>b. Competent and supportive Board and Council</li> <li>c. Governance structure is in place</li> <li>d. Enabling leadership style</li> <li>e. Participative management style</li> <li>f. Appropriate mission statement</li> </ul>	<ul style="list-style-type: none"> <li>a. Unnecessary bureaucratic decision-making process</li> <li>b. Unattractive remuneration structure</li> </ul>
<b>Internal Business Processes</b>	Leveraging technology on business processes	<ul style="list-style-type: none"> <li>a. Low levels of digitization</li> <li>b. Inadequate branding and communication</li> </ul>
<b>Resources and Capabilities</b>	<ul style="list-style-type: none"> <li>a. Prudent financial management</li> <li>b. Approved human resource instruments</li> <li>c. Resource mobilization from development partners</li> <li>d. Effective stakeholder collaboration</li> <li>e. Competent and agile staff</li> </ul>	<ul style="list-style-type: none"> <li>a. Inadequate human resource capacity</li> <li>b. Lack of dedicated public transport fund</li> <li>c. Lack of a succession planning</li> <li>d. Inadequate financial resources</li> <li>e. Inadequate physical facilities and assets</li> </ul>

### 3.1.5. Analysis of 2018/19 – 2022/23 Strategic Plan Performance

#### 3.1.5.1. Key Achievements

The overall end-term achievement of the Strategic Plan (2018/19-2022/23) is **49.6%** based on the planned activities as per the KRAs. The scores for the achievements of the Key Result Areas are indicated in table 3.4:

Table 3.4: Level of implementation

No.	Key Result Areas	Level of Implementation
1.	Transformation of Public Transport	32.0%
2.	Environmental Sustainability	15.4%
3.	Financial Stewardship	86.5%
4.	Institutional Capacity	64.6%
<b>Overall end-term achievement</b>		<b>49.6%</b>

A summary of the achievements for each of the key result areas is presented below:

### **KRA 1: Transformation of Public Transport (32.0%)**

#### **Strategic Objective 1: To enhance mobility of people**

- a) Gazettement of 5 BRT corridors and 7 commuter rail corridors
- b) Transport survey data collected around NMA for proper transport planning
- c) Reviewed BRT Line 1 Feasibility Study Report
- d) Reviewed designs of BRT Line 5 to facilitate seamless integration with other lines and ensure service optimization along the corridor
- e) Participated in review of specifications for Intelligent Transport System
- f) Review of Commuter Rail Master plan
- g) Entered into partnerships and collaborations with United Nations Population Fund, National Gender and Equality Commission, United Nations Environment Programme, UN Habitat, Japan International Cooperation Agency, Institute of Development Policy, Flone Initiative, Kenya Institute of Highway and Building, CoDATU, Federation of Public Transport Sector, Boda-boda Association of Kenya, European Union, Sports Kenya, Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH, Kenya Urban Roads Authority ,Agence Française De Développement (AFD)
- h) Four (4) modes of transport integrated (Railway, BRT, NMT, personal vehicles)
- i) Construction ongoing for Nairobi central station and Kasarani depot
- j) BRT facilities (depots and stations) developed along BRT line 2
- k) Detailed designs of integration hubs developed for Ruiru and Dandora Railway Stations

#### **Strategic Objective 2: Improve Safety and Security of public transport**

- a) Capacity building for Authority staff and relevant stakeholders on matters transportation planning, transport operations, road safety and E-mobility.
- b) Public awareness through various forums e.g. Kenya Urban forum 2023, Africities 2022

### **KRA 2: Environmental Sustainability (15.4%)**

#### **Strategic Objective 1: To improve quality of life**

- a) Explored the adoption of New Vehicle Technologies that Reduce Greenhouse Gas Emissions and air pollution through a cost benefit analysis of Internal Combustion Engine (ICE) and electric vehicles.
- b) Developed a roadmap for E-bus adoption in NMA
- c) Traffic Management Centre (TMC) for BRT line 2 construction in progress
- d) Four (4) detailed designs for Pangani underpass, Railways, Khoja, Roysambu roundabout for BRT line 2
- e) Designed 15 signalised junctions for BRT Line 3
- f) Designed 6 signalised junctions for BRT Line 5
- g) BRT Line 2 service plan developed
- h) Data collection is currently ongoing for BRT line 3 and NMA
- i) Designs completed for 50KMs out of which 28KMs is under construction

### **Strategic Objective 2: To protect the environment**

- a) Six reports submitted on electric buses technology
- b) Specifications for electric BRT buses developed
- c) Tender floated for 100 buses
- d) In the designed corridors there clearly dedicated green spaces

### **KRA 3: Financial Stewardship (86.5%)**

#### **Strategic Objective 1: To secure financial sustainability**

- a) The budget reports were done through the state department of housing
- b) The financial statements were done through the state department of housing

#### **Strategic Objective 2: To ensure prudent and optimal utilization of resources**

- a) Draft financial policy developed
- b) Five (5) procurement plans developed
- c) Four (4) audit reports developed
- d) Internal Audit department established in 2022

### **KRA 4: Institutional Capacity (64.6%)**

#### **Strategic Objective 1: To attract and retain competent human capital**

- a) Capacity building for authority staff and relevant stakeholders
- b) HR instruments developed and approved by SCAC
- c) 41 staff recruited
- d) Training policy developed
- e) Training plan developed annually
- f) Succession management plan developed
- g) Staff benefits and welfare policy embedded in the HR policy and procedures manual

#### **Strategic Objective 2: To improve ICT service delivery**

- a) Enterprise Architecture developed
- b) Draft ICT Strategy
- c) Digital Communication Platforms (Website)
- d) NaMATA Network Infrastructure
- e) User Computer and accessories
- f) Payroll System developed

- g) Business Process Modelling for HR&A and Finance & Accounts
- h) Draft Disaster Management and Business Continuity Plan

### Strategic Objective 3: To entrench corporate governance

- i) Submission of quarterly and annual progress reports to management and the Board.
- j) Annual compliance reports submitted to the Board
- k) Two (2) sensitizations undertaken on Corporate Governance and Authority’s core values
- l) Branding strategy for the Authority developed
- m) Draft service charter developed
- n) Provision of sanitization booths and PPEs to public transport operators and Counties.
- o) MRTS communication strategy developed

### Strategic Objective 4 : Legal reform to enhance MRTS

- a) Draft consequential amendments to transport, planning and related legislation to entrench the role of NaMATA
- b) Conduct public participation on legal reform agenda

#### 3.1.5.2. Challenges faced during implementation of the 2018/19-2022/23 Strategic Plan

Several factors hindered the achievement of planned activities during implementation of the 2018/19-2022/23 Strategic Plan. Table 3.5 outlines key challenges faced and proposed mitigation measures for incorporation in the 2023/24-2027/28 planning period to forestall future challenges in the implementation of this strategic plan.

Table 3.5: Challenges faced

No.	Challenges	Mitigation Measures
1.	Financial constraints	<ul style="list-style-type: none"> <li>● Enhance mobilization of financial resources</li> </ul>
2.	Wayleave acquisition	<ul style="list-style-type: none"> <li>● Proper development and implementation of Resettlement Action Plan (RAP)</li> <li>● Early acquisition of land</li> </ul>
3.	Inadequate human resource capacity	<ul style="list-style-type: none"> <li>● Attract and retain competent human resources</li> </ul>
4.	Work environment issues (transport, office furniture and equipment)	<ul style="list-style-type: none"> <li>● Provide a conducive work environment</li> </ul>
5.	Gaps in the legal and regulatory framework.	<ul style="list-style-type: none"> <li>● Review of relevant laws and regulations</li> <li>● Continuous sensitization for Parliament’s support</li> </ul>
6.	Low public awareness on NaMATA functions and mandate	<ul style="list-style-type: none"> <li>● Implement the corporate communication strategy</li> <li>● Develop/ review and implement citizen delivery charter</li> <li>● Create awareness on the mandate of NaMATA</li> </ul>
7.	Low automation levels	<ul style="list-style-type: none"> <li>● Develop and implement an Enterprise architecture</li> </ul>

No.	Challenges	Mitigation Measures
8.	Inefficient records management system	<ul style="list-style-type: none"> <li>Establish a records management unit</li> </ul>
9.	Inadequate quality management procedures on service delivery	<ul style="list-style-type: none"> <li>Establish a Quality Management System</li> </ul>
10.	Inadequate corporate policies	<ul style="list-style-type: none"> <li>Identify and develop relevant policies</li> </ul>
11.	Covid-19 pandemic	<ul style="list-style-type: none"> <li>Develop and implement Business Continuity Management Plan</li> </ul>
12.	Rapid technological changes	<ul style="list-style-type: none"> <li>Develop and implement a change management strategy</li> </ul>
13.	Political dynamics	<ul style="list-style-type: none"> <li>Secure political goodwill</li> </ul>

### 3.1.5.3. Challenges facing NaMATA in the Transport Sector

The following challenges have been identified in the transport sector and which this Plan will seek to address:

- a) Role conflicts between the Authority and other governmental agencies in the execution of Traffic management
- b) Licensing of public transport operators along the gazetted corridors

This plan has taken cognizance of these challenges and advanced various strategies for implementation.

### 3.1.5.4. Emerging Issues

The following emerging issues arose during implementation of the 2018/2019 – 2022/23 strategic plan. These issues have been taken into consideration in the 2023/24 – 2027/28 strategic planning period.

- a) Nairobi Metropolitan Services (NMS) - affected the brand of NaMATA, role conflict
- b) Change in governance of Nairobi City County
- c) NaMATA was moved from State Department of Transport State Department to Housing and Urban Development -affected stakeholders eg. donors adopted a wait and see approach
- d) Revocation of appointment of three independent directors of NaMATA Board.

### 3.1.5.5. Lessons Learnt

Key lessons learnt during implementation of the 2018/19-2022/23 strategic plan are summarized in table 3.6.

Table 3.6: Lessons learnt

S/No.	Lessons Learnt	Proposed Action
1.	Stakeholder collaborations and partnerships is critical to ensure smooth implementation of projects	<ul style="list-style-type: none"> <li>• Develop and implement a stakeholder engagement framework</li> </ul>
2.	Knowledge management systems are essential for institutional memory	<ul style="list-style-type: none"> <li>• Develop and implement a knowledge management strategy</li> </ul>
3.	Financial sustainability is essential for realization of organizational mandate	<ul style="list-style-type: none"> <li>• Develop and implement a resource mobilization strategy</li> <li>• Develop and implement an investment plan</li> </ul>
4.	Political goodwill is crucial in the transformation of public transport within NMA	<ul style="list-style-type: none"> <li>• Solicit buy in among the political class on the importance of transforming public transport within NMA</li> <li>• Identify a political champion for public transport transformation within NMA</li> </ul>
5.	Awareness of NaMATA's role in transformation of public transport system is crucial in delivering her mandate	<ul style="list-style-type: none"> <li>• Develop and implement a corporate communication strategy</li> <li>• Create awareness on the mandate of NAMATA</li> </ul>
6.	Performance management is critical to the implementation of the Strategic Plan	<ul style="list-style-type: none"> <li>• Link performance management to strategic planning and MTEF budget</li> </ul>
7.	Optimal human resource is critical to the realization of the organizational mandate	<ul style="list-style-type: none"> <li>• Attraction and retention of talent</li> <li>• Review staff salary structure in order to offer competitive remuneration</li> <li>• Recruit staff to fill the gap as per the staff establishment</li> <li>• Develop and implement succession management plan</li> </ul>
8.	Risk management is essential to the achievement of organizational objectives	<ul style="list-style-type: none"> <li>• Develop and implement a risk management framework</li> </ul>

### 3.2. Stakeholder Analysis

The Strategic Plan recognizes the role of the Authority's stakeholders and their varied expectations. Stakeholders entail: those who must implement the strategic plan, those who benefit from its implementation and those who could significantly help or hinder its implementation.

Prioritizing stakeholders will thus enable identification of stakeholders based on their power, influence and interest in the Authority’s activities using the Power-Interest grid.

Stakeholders with high power need to be kept satisfied, while people with high interest need to be kept informed.

Expectations of stakeholders with both high power and high interest need to be managed closely. Figure 1 explains the different approaches we should have for the segregated/prioritized stakeholders.

Figure 1: Approaches for segregated/ prioritized stakeholders

*Figure 1: Approaches for the segregated/prioritized stakeholders*

Figure 1 explains the different approaches we should have for the segregated/prioritized stakeholders.

- a) **High power - High interest:** these are the stakeholders and decision makers who have the biggest impact on the programmes success and their expectations must be closely managed
- b) **High power - Low Interest:** these stakeholders should be kept in loop; they need to be kept satisfied even though they aren’t interested because they yield power. These stakeholders should be dealt with cautiously since they may use their power in an unwanted way in the project if they become unsatisfied.
- c) **Low power – High interest:** these stakeholders should be kept adequately informed, and talk to them to ensure that no major issues are arising. They can often be very helpful with the detail of your programmes.
- d) **Low power - low interest:** these stakeholders should be monitored but do not bore them with excessive communication.

A stakeholder analysis was conducted to map out the key stakeholders and assess how their interests should be addressed in the Strategy. A summary of the key stakeholders of NaMATA is provided in table 3.7:

Table 3.7: Stakeholder Analysis

No	Name of Stakeholder	Power H/M/L	Interest H/M/L	Role of Stakeholder	Expectations of the Stakeholder	Expectations of NaMATA
1.	Ministry of Roads and Transport	3	3	<ul style="list-style-type: none"> <li>• Policy Direction</li> <li>• Resource mobilization</li> <li>• Regulation of infrastructure development</li> </ul>	<ul style="list-style-type: none"> <li>• Implement and manage Public Transport programs as per the Authority's mandate</li> </ul>	<ul style="list-style-type: none"> <li>• Enabling policies on urban transport sector</li> <li>• Overall guidance and policy formulation in the transport sector</li> <li>• Adequate resource mobilization and timely release of funds</li> </ul>
2.	Nairobi City County Government (NCCG)	3	3	<ul style="list-style-type: none"> <li>• Policy direction on Nairobi City County Transport plans</li> <li>• Funding and budgetary allocation</li> <li>• Implementation of programmes</li> </ul>	<ul style="list-style-type: none"> <li>• Help in decongestion of the city through implementation of MRTS (planning, studies, designing, maintain a data repository)</li> <li>• Oversight, financing and implementation of public transport sector policies</li> </ul>	<ul style="list-style-type: none"> <li>• Collaboration and partnership</li> <li>• Ownership and Enabling environment</li> <li>• Allocation of funds</li> </ul>
3.	Kiambu County	3	3	<ul style="list-style-type: none"> <li>• Policy direction on County Transport plans</li> <li>• Funding and budgetary allocation</li> <li>• Implementation of programmes</li> </ul>	<ul style="list-style-type: none"> <li>• Help in decongestion of the city through implementation of MRTS (planning, studies, designing, maintain a data repository)</li> <li>• Oversight, financing and implementation of public</li> </ul>	<ul style="list-style-type: none"> <li>• Ownership and Enabling environment</li> <li>• Collaboration and partnership</li> <li>• Allocation of funds</li> </ul>

### Overview

This chapter outlines the strategic issues that the Authority seeks to address during the plan period, the goals to be realized and the key result areas linked to the attainment of the strategic goals.

#### 4.1. Strategic Issues

The strategic issues are problems or opportunities emanating from situational analysis that the Authority has to manage in order to be able to fulfill its mandate and mission. The following strategic issues have been identified:

**Strategic Issue 1:** Urban mobility in Nairobi Metropolitan Area (NMA)

**Strategic Issue 2:** Organizational efficiency

**Strategic Issue 3:** Financial sustainability and stewardship

#### 4.2. Strategic Goals

The Authority has identified Strategic goals that it seeks to realize arising from addressing the strategic issues identified in 4.2 above. The following strategic goals have been identified:

**Goal 1:** Improve urban mobility within NMA

**Goal 2:** Improve the environmental sustainability of the transport systems in the Metropolitan Area

**Goal 3:** Improve organizational efficiency and effectiveness

**Goal 4:** Improve financial sustainability and stewardship

#### 4.3. Key Result Areas (KRAs)

The strategic framework for NaMATA's Strategic Plan 2023/24- 2027/28 is aligned to its mandate. The framework outlines interrelated KRAs which the Authority will pursue in the next five years. It is expected that institutionalization of the framework will revitalize the Authority's performance in realization of its mandate.

**KRA 1:** Public Transport System in NMA

**KRA 2:** Institutional capacity

**KRA 3:** Financial management

Table 4.1: Strategic Issues, Goals and KRA

<b>Strategic Issue</b> (Problems or opportunities emanating from situational analysis that NaMATA has to manage in order to fulfill mandate (E.g. Food security))	<b>Goal</b> (General qualitative statements on what an organization is hoping to achieve in the long term. Each strategic goal is linked to a strategic issue. Goals are the foundations of your plan and need to be set at the start of the planning process. (E.g. Improve Food Security))	<b>KRAs</b> (They are the broad areas in which you are expected to deliver results. (E.g. Food Production))
1. Urban mobility in Nairobi Metropolitan Area (NMA)	1. Improve urban mobility within NMA 2. Improve the environmental sustainability of the transport systems in the Metropolitan Area	Public Transport System in NMA
2. Organizational efficiency	3. Improve organizational efficiency and effectiveness	Institutional capacity
3. Financial sustainability and stewardship	4. Improve financial sustainability and stewardship	Financial management

## CHAPTER FIVE: STRATEGIC OBJECTIVES AND STRATEGIES

### Overview

This chapter presents the strategic objectives and strategies for the 2023/24 – 2027/28 strategic planning period with a focus on the outcomes, annual projections and strategic choices to be pursued in order to achieve the identified strategic objectives.

### 5.1. Strategic Objectives

Table 5.1 provides strategic objectives that have been formulated to address each of the Key Result Areas. The table also provides the desired outcomes derived from the strategic objective's interventions. Strategies formulated for each of the strategic objectives are provided in table 5.3.

*Table 5.1: Strategic Objectives and Outcomes*

S/No.	Key Result Area	Strategic objectives	Outcomes
1.	Public Transport System in NMA	1.1 To improve public transport within NMA	<ul style="list-style-type: none"> <li>● Improved public transport management and administration</li> <li>● An integrated sustainable safe and inclusive public transport</li> <li>● Efficient traffic flow with NMA</li> <li>● Enhanced level of service in public transport</li> </ul>
		1.2 To improve environmental sustainability of the transport system within NMA	<ul style="list-style-type: none"> <li>● Environmentally sustainable public transport</li> </ul>
2.	Institutional capacity	To strengthen the Authority's institutional capacity	<ul style="list-style-type: none"> <li>● Enhanced legal and regulatory framework</li> <li>● Improved corporate governance,</li> <li>● Improved performance</li> <li>● Increased employee satisfaction</li> <li>● Increased utilization of research</li> <li>● Improved operational efficiency</li> <li>● Increased customer satisfaction</li> <li>● Improved brand awareness</li> </ul>
3.	Financial Management	To enhance mobilization and prudent management of financial resources	<ul style="list-style-type: none"> <li>● Increased financing</li> <li>● Optimal financial management</li> </ul>

## 5.2. Strategic Choices

The following strategies as identified in table 5.3 have been formulated in order to achieve the strategic objectives. Key activities to action the various strategies are provided in Appendix 1.

*Table 5.3: Strategic Objectives and Strategies*

Key Result Areas	Strategic objectives	Strategies
Public Transport System in NMA	1.1 To improve public transport within NMA	1.1.1 Strengthen public transport planning and management within NMA 1.1.2 Optimize MRTS operations 1.1.3 Integrate public transport infrastructure 1.1.4 Enhance traffic management systems within NMA 1.1.5 Enhance passenger experience 1.1.6 Mainstream safe operational plans that are inclusive
	1.2 To Improve environmental sustainability of the transport system within NMA	1.2.1 Mainstream climate change action (mitigate, adapt and resilience) in public transport
Institutional capacity	To strengthen the Authority's institutional capacity	2.1.1 Enhance legal, legislative and regulatory instruments to govern public transport industry within NMA 2.1.2 Improve corporate governance, risk management and compliance 2.1.3 Enhance NaMATA's corporate brand 2.1.4 Attract, develop and retain competent human capital 2.1.5 Institutionalize, research, knowledge development and innovation 2.1.6 Business process reengineering
Financial management	To enhance mobilization and prudent management of financial resources	3.1.1 Mobilize financial resources 3.1.2 Prudent management of financial resources

## CHAPTER SIX: IMPLEMENTATION AND COORDINATION FRAMEWORK

---

### Overview

This chapter provides a framework for implementing and coordinating NaMATA's 2023-2027 Strategic Plan. The chapter discusses the implementation plan, coordination and risk management framework.

### 6.1. Implementation Plan

The successful execution of any strategic plan hinges upon its implementation. This chapter delves into the crucial steps of translating broad goals and objectives into actionable steps, ensuring efficient resource allocation and establishing clear timelines and milestones for progress measurement.

#### 6.1.1 Action Plan

The implementation plan defines the strategic issues, strategic goals, key result areas, strategic objectives, outcomes, strategies, strategic activities and output indicators. Additionally, it provides key performance indicators, targets, times and projected costs for the planned activities along with the responsible centre. The detailed implementation plan will serve as the basis for formulating Annual Work Plans (AWPs) and will assist management in;

- a) Mobilizing, allocating and utilizing resources effectively
- b) Managing and coordinating programs and projects efficiently
- c) Facilitating the monitoring and evaluation of programs and project

Monitoring and evaluation are integral components of each strategy. The success of implementation relies on continuous learning, emphasizing the importance of incorporating regular monitoring and evaluation throughout every aspect of each strategy. While conducting monitoring and evaluation, it is crucial to recognize that the focus extends beyond individual activities, understanding the synergies between them is essential. Therefore, adopting a cross-cutting approach becomes vital for maximizing the strategic impact. The Implementation plan is provided in appendix 1.

#### 6.1.2 Annual Work Plan and Budget

The annual workplan and budget are the operational backbone of NaMATA, translating the strategic vision outlined in the implementation plan into a tangible annual road map. Data-driven and meticulously crafted, it serves as the guiding light for resource allocation, project execution and performance measurement. Informed by the strategic objectives and strategic activities, the AWP will help NaMATA prioritize initiatives, concretize action steps, strategic resource allocation and performance benchmarks based on the clear metrics and milestones to monitor progress, measure success and adapt strategies as needed.

### 6.1.3 Performance Contracting

The Performance Contract (PC) serves as a pivotal instrument within the strategic framework of NaMATA. Aligned with the organizational objectives and overarching goals, the PC encapsulates a structured approach to achieving performance targets and operational milestones. Collaboratively developed with input from various departments and units, the PC is a dynamic tool that outlines annual performance priorities, providing a roadmap for resource allocation, strategy implementation and continuous evaluation.

## 6.2 COORDINATION FRAMEWORK

The 2023-2027 strategic plan requires a robust institutional framework, optimal staff levels, requisite skill sets and competencies, focused and committed leadership, and good systems and procedures.

### 6.2.1 Institutional Framework

The Board will provide the overall strategic direction of the Authority for the next five years and exercise oversight in its implementation; the Director General/CEO will work closely with the Heads of Directorates and Departments. The Head of Strategy and Planning shall ensure the plan is executed at the operational level, undertake M&E, and provide frequent feedback to all the key players through timely and accurate reporting. The coordination will, therefore, be as follows:

- a) Strategic leadership and direction: The Board
- b) Overall leadership, and commitment – Director General
- c) Implementation and supervision – Strategic Planning Committee
- e) Feedback reporting, documentation, M&E and dissemination throughout the plan period- Department of Planning and Strategy

### 6.2.2 Staff Establishment, Skills Set and Competence Development

Table 6.1 shows the Authority's staff establishment in terms of approved staffing, optimal staff levels, in-post as well as the variance.

*Table 6.1: Staff Establishment*

S.No.	Cadre	Approved Staffing (A)	Optimal Staff Levels (B)	In-Post (C)	Variance D=(B - C)
1	Director General/CEO	1	1	1	0
2	Legal Officers	8	8	1	7
3	Infrastructure Development Officers	16	16	6	10
4	Project Delivery & Coordination Officers	14	14	0	14
5	Transport Planning Officers	11	11	0	11

6	Traffic Engineering Officers	10	10	0	10
7	Environment & Safety Officers	6	6	0	6
8	Network Development & Management Officers	11	11	4	7
9	Standards, Registration & Licensing Officers	7	7	0	7
10	Compliance, Technical & Quality Assurance Officers	5	5	0	5
11	Traffic Modelling & Management Officers	5	5	0	5
12	Traffic Signal Development & Maintenance	6	6	0	6
13	Commuter Rail Infrastructure Development Officers	8	8	1	7
14	Business Development, Operations & Maintenance Officers	5	5	0	5
15	Corporate Services Officer	1	1	0	1
16	Corporate Policy, Research & Strategy Officers	4	4	1	3
17	Planning, Research & Development Officers	5	5	1	4
18	Risk Management Coordination Officers	5	5	0	5
19	Finance & Accounts Officers	9	9	5	4
20	Human Resource & Administration Officers	7	7	5	2
21	Records Management Officers	1	1	0	1
22	ICT Officers	8	8	2	6
23	Corporate Communications Officers	5	5	2	3

24	Customer Care Officers	3	3	1	2
25	Supply Chain Management Officers	8	8	4	4
26	Internal Audit Officers	5	5	1	4
27	Office Administrator/Senior	10	10	3	7
28	Driver/Senior	14	14	3	11
29	Office Assistant	17	17	3	14
<b>TOTAL</b>		<b>215</b>	<b>215</b>	<b>44</b>	<b>171</b>

The Authority has diverse skills across all functional areas and will continually identify the skills gaps and undertake competency development required for implementation of the strategic plan.

*Table 6.2: Skills Set and Competence Development*

● No.	● Cadre	● Skills set	● Skills Gap	● Competence Development

### 6.2.3 Leadership

The Strategic Plan 2023-2027 shall be implemented using the approved Authority organogram, which provides for the leadership structure. The Board shall provide overall strategic direction, and the Director General/CEO will lead the implementation of the strategic plan supported by Directors and heads of departments.

*Table 6.3: Strategic theme teams*

KRA	Strategic Theme Team

### 6.2.4 Systems and Procedures

The Authority identifies the lack of a quality management system as one of her major weaknesses. Significant resources will be used to ensure the Authority has a robust quality management system by June 2026. This will be evidenced by certification by a recognized professional body. The Authority will also map out all the policies required for efficient and effective operations, develop and implement them during the plan period.

### 6.3 Risk Management Framework

Possible risks, to which the Authority may be exposed to during the Strategic Plan implementation have been identified, ranked and suggested mitigation strategies provided. Table 6.4 provides some of the risks to which the Authority may be exposed to.

*Table 6.4: Risk Management Framework*

No	Risks Category	Risk and description	Risk Likelihood L/H/M	Impact L/H/M	Overall Risk level L/H/M	Mitigation Measure (s)	Risk owner
1.	Strategic risks	Inability to implement/complete MRTS Projects	H	H	H	-Lobby government for funds -Develop PPPs -Mobilize funds from development partners	Director, Finance & Accounts

No	Risks Category	Risk and description	Risk Likelihood L/H/M	Impact L/H/M	Overall Risk level L/H/M	Mitigation Measure (s)	Risk owner
		Inability to realize NaMATA'S mandate	H	H	H	-Monitor implementation of the 2023-2027 strategic plan	Deputy Director, CPRS
2.	Compliance risks	Privacy and data security	M	M	M	-Adhere to the Data Protection Act -Training and awareness	Director, legal
		Corrupt or illegal activities	M	M	M	Integrity training and awareness -Constitute integrity committee	Director, legal
3.	Financial risks	Budget cuts	H	H	H	-Diversify revenue sources -Development of PPPs	Deputy Director, Finance & Accounts
		Theft and embezzlement of funds	M	M	M	-Putting a strong system of internal control in place -Training staff on ethics and integrity	Deputy Director, Finance & Accounts
4.	Reputational risk	Bad customer service	H	H	H	-Meticulous planning in operations -Training on customers service Develop and monitor implementation of customer service standards	Director, PTO
5.	Macro-economic risks	Currency fluctuation	H	H	H	Hedging	Director, Finance & Accounts
		High inflation rate	H	H	H	Hedging	Director, Finance & Accounts
6.	Information security and data risks	Network and data security risks	M	M	M	-Training and awareness -Installation of antivirus software -Business continuity planning	Deputy Director, ICT

No	Risks Category	Risk and description	Risk Likelihood L/H/M	Impact L/H/M	Overall Risk level L/H/M	Mitigation Measure (s)	Risk owner
7.	Human Capital risks	Staff turn over	M	H	H	-Seek recategorization of the Authority -Design and implement motivation programs -Staff empowerment -Career advancement opportunities	Deputy Director, HRM
		Mental health problems	L	H	L	-Develop wellness programs	Deputy Director, HRM
8.	Legal, regulatory and policy risks	Contracts risks	M	M	M	-Develop and implement a contract management framework	Director, legal
		Disputes	M	M	M	-Ensuring compliance to contractual obligations	Director, legal
9.	Governance risks	Delayed board appointments	M	M	M	-Notifying the appointing Authority in advance of any impending vacancies and constant follow up	Corporation Secretary
		Breach of Mwongozo	M	M	M	Board induction and continuous competence development	Corporation Secretary
10.	Business Continuity risks	Cyber attacks	M	M	M	Develop and implement business continuity plans	Corporation Secretary
11.	Political risks	Political violence	M	M	M	-Hire more security officers to manage Authority's assets during violence	Director, P&P
12.	Safety and security risks	Insufficient security personnel	L	H	L	-Establish MOUs with police -Hire private security to cover shortfall	Director, PTO
		Defective or malfunctioning BRT buses	L	H	L	-Procure internally to procure the most quality -Conduct adequate market research	Director, PTO
13.	Natural disaster risks	Earthquake	L	L	L	Develop and implement back up plans	Director, Corporate services

No	Risks Category	Risk and description	Risk Likelihood L/H/M	Impact L/H/M	Overall Risk level L/H/M	Mitigation Measure (s)	Risk owner
14.	Social risks	Low community participation	L	L	L	Develop and implement a public participation policy	Director, CPRS
		High concentration of poverty in NMA	L	M	M	Provide public transport economic opportunities to urban dwellers	Director, PTO

DRAFT

## CHAPTER SEVEN: RESOURCE REQUIREMENTS AND MOBILIZATION STRATEGIES

### Overview

The chapter discusses the resource requirements and resource mobilization strategies and elaborates on how resources will be managed.

### 7.1 Financial Requirements

The successful implementation of this Strategic Plan is contingent on the availability of adequate funding. The Authority will require sufficient funding to implement the outlined strategic objectives for the financial years 2023/2024 to 2024/2027 plan period. Program based budgeting will be adopted to ensure activities in the plan are adequately funded and achieved. The funding for planned activities will come from the Government of Kenya, internally generated revenue, internal and external grants, and any other source approved by the National Treasury.

Table 7.1 gives the estimated resource requirements for the plan period while Table 7.2 highlights the Resource Gaps

Table 7.1: Financial Requirements for Implementing the Strategic Plan

Key Result Area	Strategic Objective	Projected Resource Requirements (Kshs. Mn)					
		2023/24	2024/25	2025/26	2026/27	2027/28	Total
KRA1: Public Transport System in NMA	1.1 To Improve Public Transport within NMA	1,000	4,845	5,238	4,261	4,120	<b>19,464</b>
	1.2 To Improve environmental sustainability of the transport system within NMA	0	52.5	92.5	92.5	107.5	<b>345</b>
KRA2: Institutional Capacity	To strengthen the Authority's institutional capacity	95.1	306.8	277.7	235.9	224.7	<b>1,140.2</b>
KRA3: Financial Management	To enhance mobilization and prudent management of financial resources	50.5	221	366	336.1	226.2	<b>1,199.8</b>
Administrative Cost (Recurrent expenditure)		181.4	600	700	800	880	<b>3,161.4</b>
<b>Total</b>		<b>1,327</b>	<b>6,025.3</b>	<b>6,674.2</b>	<b>5,725.5</b>	<b>5,558.4</b>	<b>25,310.4</b>

Table 7.2: Resource Gaps

<b>Financial Year</b>	<b>Estimated Financial Requirements (KSh. Mn)</b>	<b>Estimated Funding (KSh. Mn)</b>	<b>Variance (KSh. Mn)</b>
Year 1	1,327	1,202	(125)
Year 2	6,025.3	1,237	(4,788.3)
Year 3	6,674.2	2,900	(3,774.2)
Year 4	5,725.5	3,800	(1,925.5)
Year 5	5,558.4	4,140	(1,418.4)
<b>Total</b>	<b>25,310.4</b>	<b>13,279</b>	<b>(12,031.4)</b>

## 7.2 Resource Mobilization Strategies

The practical implementation of this strategic plan and optimal execution of the mandate depends on the availability of adequate financial resources. The Authority will receive an annual allocation from the exchequer and look for additional sources of revenue to implement the Plan. The resource mobilization strategies shall include: -

- I. Advocating for increased annual funding from the exchequer to meet the huge mandate bestowed on the Authority;
- II. Licensing and service fees
- III. Engaging strategic development partners, philanthropists, and industry players through structured funding dialogues to support the Authority’s programs, capital development projects, and capacity-building initiatives.

## 7.3 Resource Management

The Authority shall ensure prudent use of resources by adopting the following strategies:

- I. Aligning all programs with the government’s stated priority areas in the public transport sector to attract stakeholder support;
- II. Automation and digitization of internal processes to reduce the cost of operation and ensure efficient and effective service delivery for customer satisfaction. These will attract more customers and increase internally generated revenue;

- III. Recruitment and appropriate deployment of the skilled workforce: When a qualified worker is placed in the right job, the employee is motivated, productivity is enhanced, and there is also optimum utilization of resources;
- IV. Motivating employees to ensure high levels of task engagement and productivity;
- V. Adopting green energy technologies may include water-saving technologies like self-regulated taps and energy saving bulbs among others;
- VI. Develop and implement a partnership and collaboration policy and engage in structured funding dialogue with development partners for mutual benefit; this will help the Authority get funding support for capital projects, capacity building, and other material support;
- VII. Capacity building of staff on financial literacy, expenditure controls and management, corporate governance and leadership;
- VIII. Efficient and effective Monitoring and Evaluation of programs and projects;
- IX. Mapping out and mitigating risks that are likely to affect the achievement of corporate objectives;
- X. Enhance the visibility of NaMATA and its activities to attract support for some programs and projects;
- XI. Embrace water and energy conservation measures to reduce utility bills.

DRAFT

## CHAPTER EIGHT: MONITORING, EVALUATION AND REPORTING FRAMEWORK

### Overview

This chapter provides the monitoring, evaluation and reporting (ME&R) framework for the Authority that will ensure implementation is on track. ME&R is vital in ensuring that targets are achieved within the plan period. NaMATA will monitor and evaluate the activities, outputs and outcomes to ensure that the objectives of the Plan are attained.

### 8.1. Monitoring Framework

The purpose of a ME&R framework is to provide a consistent approach to the monitoring and evaluation of NAMATA Programmes and Projects. Data and information captured will be used to review implementation progress of initiatives. Monitoring and evaluation will be an integral part of the Authority's Performance management system and will be a continuous process. The Strategic Plan shall be cascaded to all staff to enable them to understand and plan for their respective roles and ensure that ME&R is integrated into the performance management system. Functional and individual work plans shall be developed in line with activities in the Plan.

The ME&R framework for this Plan will be based on the various Key Result Areas, strategic objectives, outputs and outcomes that the Authority envisages to achieve during the 2023-2027 plan period. Specifically, monitoring the implementation of the Strategic Plan shall be based on the corporate annual work-plan, departmental annual work-plans and individual work plans. Progress for each activity shall be measured against specific targets in the Plan and reporting done on quarterly, biannually and annual basis. Results from the analysis shall then be used to inform decision-making, identify challenges and take immediate corrective action.

#### 8.1.1. Coordination of Monitoring, Evaluation and Reporting

For the Strategic Plan to be effectively implemented, ME&R shall be coordinated by the Corporate Policy, Research and Strategy department. The department shall ensure that strategies are being implemented, performance is being measured, progress reports are made and discussed, and corrective action is taken where necessary. Heads of Departments will be responsible for the day-to-day implementation, reporting, monitoring, and evaluation of the plan. They shall be accountable for the completion of tasks indicated in their respective work-plans. Responsibility for data collection, aggregation, analysis and reporting on the Plan will rest with the Heads of departments.

The Board shall be responsible for overseeing the monitoring and evaluation of the Plan's Implementation. The Director General shall ensure that a performance management system is implemented, actual performance is measured against negotiated targets at all levels and feedback provided to key actors in the implementation.

### 8.2. Performance Standards

The Authority has defined the key performance indicators at the output and outcome levels to facilitate tracking performance for the strategic plan.

### **8.3 Evaluation Framework**

Evaluation helps improve performance and achieve results through the measurement and assessment of performance in order to more effectively manage the outputs and outcomes. The Authority will undertake periodic review of the results of the Plan to establish the extent to which the outputs and expected outcomes have been achieved with a view to advising management and the Board on any performance gaps as well as offer feasible strategy alternatives. An outcome performance matrix is provided to guide monitoring and evaluation. It indicates the KRAs, expected outcomes, key performance indicators, baseline, mid-term targets and end-term targets. The outcome performance matrix is provided in **Appendix III**. Performance evaluation and review of the strategic plan shall be undertaken as follows:

#### **8.3.1 Mid-Term Evaluation**

A Mid-Term evaluation and review will be undertaken as at December 2025 to take stock of strategy implementation status. The review will inform the necessary changes in the objectives, strategies, and activities to be incorporated for the remainder of the Plan period. Any emerging issues from the operating environment affecting the Authority will be addressed at this point.

#### **8.3.2 End-Term Evaluation**

A final evaluation for this Strategic Plan shall be carried out at the end of the planning period to:

- a) Measure actual performance against set targets and establish gap or variance, if any;
- b) Enumerate achievements realized, challenges faced and mitigation measures;
- c) Document lessons learnt; and
- d) Inform the way forward on the next cycle Strategic Plan.

### **8.4 Reporting Framework and Feedback Mechanism**

The performance management system will ensure actual performance is measured against agreed targets at all levels to obtain regular feedback on progress towards achieving the set milestones and results. The Heads of Departments shall ensure progress reports are made, discussed and corrective action taken where necessary. To facilitate reporting on performance, data and information collection templates and procedures shall be developed for use by the various departments. The reports shall describe actions taken towards achieving the specific strategies of the Plan and shall include achievements, challenges, lessons learnt and recommendations.

To ensure implementation is on track, the Director General shall ensure meetings are held to review progress and resolve issues that may arise in implementation. Scheduled meetings shall be held as follows:

- I. Monthly review meetings at the departmental levels shall be convened to ensure implementation is on track;
- II. Quarterly review meetings at the senior management and Board levels shall be convened to receive reports on implementation of the Plan;

- III. The overall oversight of the Strategic Plan and its implementation is a critical role of the Board. Therefore, progress reporting will be an Agenda Item in quarterly Board Meetings; and
- IV. A Strategy implementation review meeting will be held annually to evaluate the progress made on the implementation of the Plan.

#### **8.4.1 Progress Reports**

Progress reporting on implementation of the Strategic Plan is important in adjusting strategic directions and measuring performance. The Corporate Policy, Research and strategy department shall submit the following reports to the Management and the Board on the progress made in implementation of the Plan:

- a) Quarterly reports – Management and the Board; and
- b) Annual reports– Management, the Board and relevant stakeholders.

#### **8.4.2 Information Sharing**

Information sharing and reporting will be key in reviewing this Plan. It will also provide a mechanism for monitoring and evaluation. Reports on the implementation status of the Plan will also be made available to NaMATA staff and management on a quarterly basis.

## Appendix I: Implementation Matrix

### KRA1: Public Transport System in NMA

Strategy	Key Activities	Expected Output	Output Indicators	Target for 5 years	Target					Budget (KSh. Mn)					Responsibility

**Appendix III: Outcome Performance Matrix**

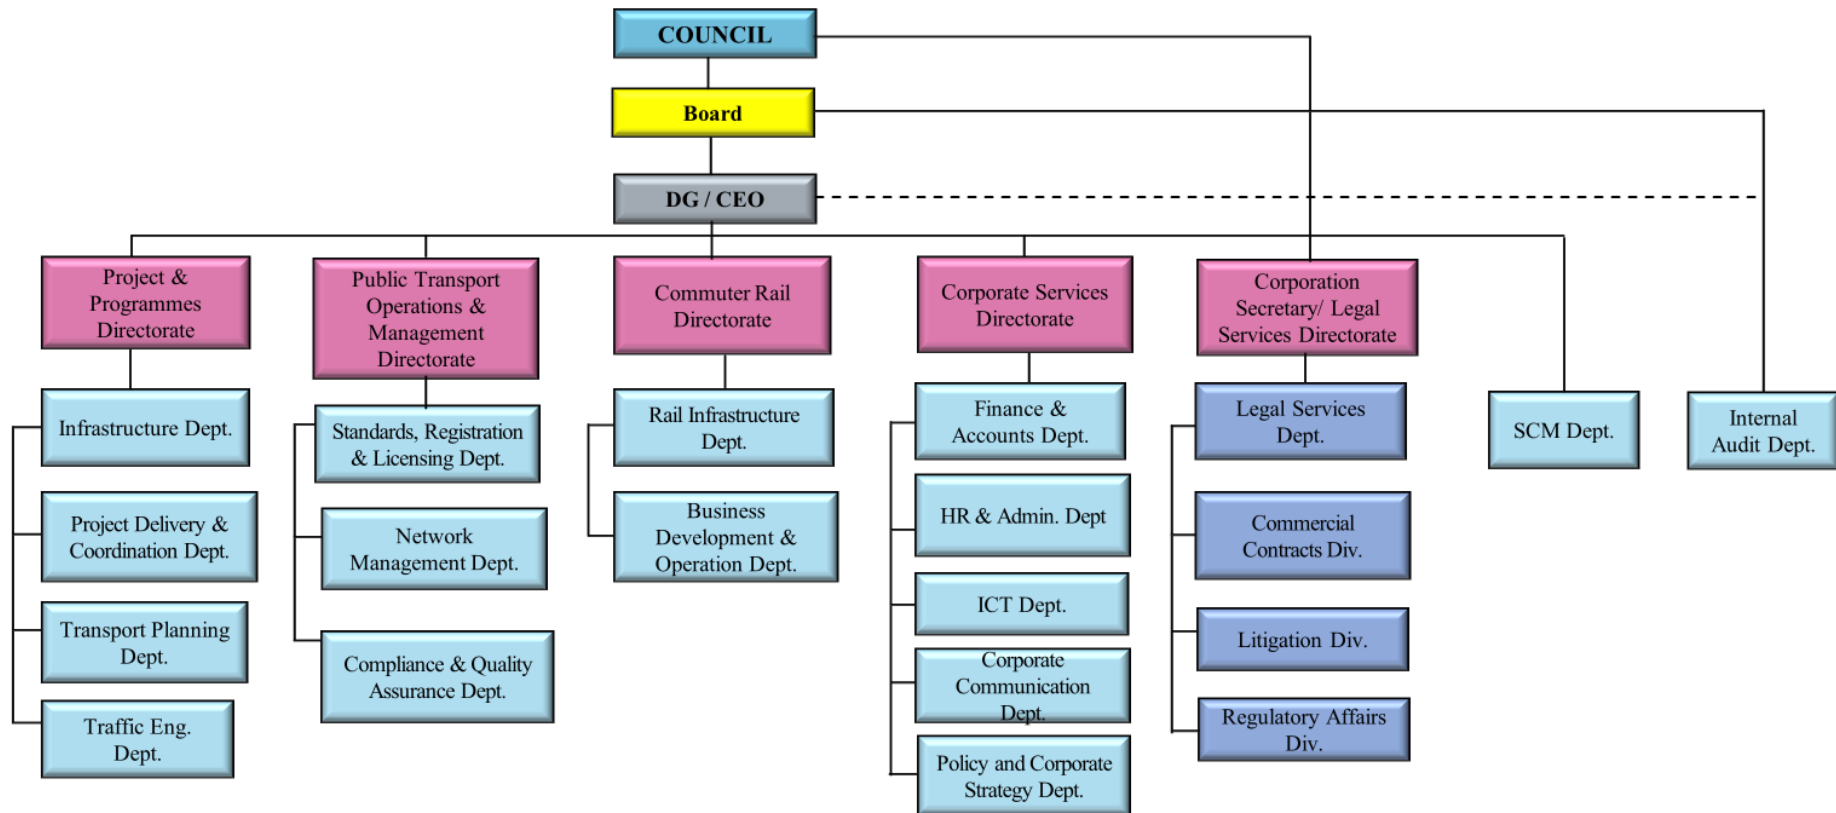

No	Key Result Area	Outcome	Outcome Indicator	Baseline		Target	
				Value	Year	Mid-term period target (2025/26)	End of plan period target (2027/28)
1.	Public Transport System in NMA	Improved public transport management and administration	No. of public transport strategies	-	-	3	3
			Level of strategy implementation	-	-	50	100
			Sustainable urban mobility plan	-	-	-	1
			No. of public transport frameworks	-	-	1	-
			Updated Land use plan in NMA	-	-	-	1
			Reviewed commuter Rail Master Plan	-	-	0.75	1
			BRT Master Plan	-	-	0.75	1
			Detailed NMT master plan	-	-	-	1
			Land Value Capture framework	-	-	0.5	1
			Level of implementation	-	-	-	100%
			TOD plans	-	-	-	50
			No. of TOD implemented	-	-	1	2
			Travel demand model	-	-	1	-
			Integrated route network plan	-	-	1	-
	An integrated sustainable safe and inclusive public transport	No. of operational systems developed	-	-	3	3	
		No. of operational systems deployed	-	-	2	2	
		No. of BRT KMs designed	-	-	124.5	128.5	
		No. of BRT facilities designed	-	-	67	85	
		KMs of NMTs designed on MRTS corridors	-	-	67.5	82.5	
		No. BRT KMs constructed	-	-	91.5	77.5	
No. of BRT facilities constructed		-	-	46.5	61.5		
No. BRT KMs maintained	-	-	25	49			

No	Key Result Area	Outcome	Outcome Indicator	Baseline		Target	
				Value	Year	Mid-term period target (2025/26)	End of plan period target (2027/28)
			No. of BRT facilities maintained			9	35
			No. of paratransit facilities designed	-	-	65	-
			No. of paratransit facilities constructed	-	-	45	60
			No. of bus bays, bus terminals and stations maintained	-	-	10	30
			No. of KMs of NMT constructed	-	-	67.5	82.5
			No. of KMs of NMT maintained	-	-	30	60
			No. of gender and social inclusivity framework developed	-	-	-	1
			No. of policies	-	-	1	-
			Level of policy implementation	-	-	-	100%
		Efficient traffic flow with NMA	ITMS Master Plan	-	-	0.5	-
			No. of signalized junctions deployed	-	-	55	70
			No. of TDM strategies	-	-	2	-
			Traffic management center	-	-	-	1
		Enhanced level of service in public transport	No. of standards	-	-	3	3
			No. of frameworks	-	-	4	3
			No. of manuals	-	-	2	2
		Environmentally sustainable public transport	Low emission framework	-	-	0.5	1
			Level of implementation	-	-	-	100%
			Emission standard for PSVs within NMA	-	-	-	1
			Level of enforcement	-	-	-	100%
			No. of active mobility initiatives	-	-	2	2

No	Key Result Area	Outcome	Outcome Indicator	Baseline		Target	
				Value	Year	Mid-term period target (2025/26)	End of plan period target (2027/28)
2.	Institutional Capacity	Enhanced legal and regulatory framework	No. of amended public transport regulatory instruments	-	-	3	3
		Improved corporate governance	Level of compliance with governance and legal requirements	-	-	100%	100%
			Board evaluation score				
		Improved performance	Performance contract composite score	-	-	2.9	2.7
		Increased employee satisfaction	Employee satisfaction index	-	-	60%	80%
		Evidence based decision making for public transport	Research and innovation strategy	-	-	1	1
			No. of research projects undertaken	-	-	4	8
			Research and innovation center	-	-	-	1
		Improved operational efficiency	Level of automation	-	-	3	3
			ISO 9001:2015 certification	-	-	1	1
Increased customer satisfaction	Customer satisfaction index	-	-	-	70%		
Improved brand awareness	Brand reputation index	-	-	60%	80%		
3.	Financial management	GoK exchequer funds	Budget statement	83.2	2023/24	4.142B	5.158B
		Climate financing related investments	Amount of climate funds raised	-	2023/24	25M	160M

No	Key Result Area	Outcome	Outcome Indicator	Baseline		Target	
				Value	Year	Mid-term period target (2025/26)	End of plan period target (2027/28)
		Investments from PPP	Number of projects financed under PPP	-	2023/24	42M	205M
		Financing mobilized from development partners	Financing agreements	0	2023/24	-	2B
		Level of compliance with financial and procurement laws, regulations, policies, guideline and circulars	Unqualified audit reports	50M	2023/24	700M	1.7B
		% of GoK funds absorption	Financial statements	90%	2023/24	100%	100%
		Pending bills as a % of the budget	Pending bills ratio	1	2023/24	1	1
		% implementation of procurement and disposal plan	Approved procurement and disposal plans	100%	2023/24	100%	100%

# ORGANISATION STRUCTURE

### Appendix V: Strategic Planning Committee

S/No.	Name	Designation
1.	Eng. Francis Gitau	Director General (Chairman)
2.	Connie Ngachu	Corporation Secretary/Director Legal Services
3.	Eng. John Githui	Director Projects & Programmes
4.	Dr. Mucemi Gakuru	Director Commuter Rail
5.	Dr. Dominic Omboto	Deputy Director Corporate Policy Research & Strategy
6.	Judith Mukoma	Deputy Director Human Resource Management & Administration
7.	Patrick Owuor	Deputy Director ICT
8.	Soila Shunet	Head Supply Chain Management
9.	Brian Kiptoo	Ag. Deputy Director Finance & Accounts
10.	June Muthoga	Assistant Director Internal Audit
11.	Abigael Muigai	Senior Officer Network Management
12.	Winnie Chore	Senior Officer Network Management
13.	Festus Ondati	Planning Officer
14.	Cynthia Chebet	Corporate Communication Officer
